

Toyota Camry (2007-2011)
All models including Hybrid

PART NUMBER: MV-50-03-L

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

TOOLS REQUIRED: #2 Phillips screwdriver, drill and 5/64" bit, dash trim removal tool (DM-40-22), marking pen, protective cloths

PARTS INCLUDED: Pro.Fit Legend, instructions, two (2) # 8 x 1/2" screws, hardware pack

LOCATION: Right of radio

STEP 1. Remove the trim bezel that surrounds the shifter. Using the dash trim tool, begin in any corner to release all 7 clips, working all the way around bezel. Using the dash trim tool again, remove the 2 tall narrow trim pieces, one on each side of the pocket immediately below the radio. Each has 2 clips.

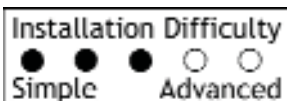

STEP 2. Keeping pocket closed, remove the 2 screws hold ing the pocket and pull it out. With dash trim tools remove air vents above radio. Start in a corner and work around to release clips. Remove (4) 10mm bolts securing radio, two above and two below.

STEP 3. Carefully slide radio out. **Do not disconnect.** Position Legend mount along the right edge of molding (See image 3) approximately 2 inches above base of molding. Mark position of mount and holes. Carefully drill starter holes. Place Legend mount in position and secure with hardware provided. Snug down screws by hand. Always use caution to avoid over tightening and stripping out screws that anchor into plastic. Reassemble in the reverse order. This completes the installation of your VSM Legend mount.
