

## Pontiac Grand Prix (2004-2008)

PART NUMBER: PT-51-04-L

**PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.**

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

**TOOLS REQUIRED:** Dash Trim Removal Tool, # 2 Phillips screwdriver, dash trim removal tool

**PARTS INCLUDED:** Pro.Fit Legend, instructions

**LOCATION:** Right of radio

### STEP 1.

Set the emergency brake and place gear shift into neutral. Using the dash trim removal tool, pry off the ring around the ignition key switch. Slide the trim tool behind the lower right corner of the radio/climate control bezel and pry outward, releasing a clip. **Photo 1.** Work the tool clockwise around the bezel, prying outward until all clips are released. Set bezel aside.

### STEP 2.

Remove the eight (8) Phillips screws that hold the radio and climate control in place. Pull out the top right corner of the radio and slide the Legend behind the radio mounting bracket. Align the top hole of the Legend over the screw hole and the lower hole over the centering pin. Replace the Phillips screws and tighten.

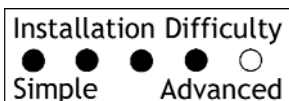

### STEP 3.

Re-assemble the dash in reverse order. Place gear shift into park and release emergency brake. This completes the installation of your Legend.
