What is ID FRAUD?

Your identity and personal information are invaluable. Identity fraud occurs to an individual when their personal information is used by someone else without their knowledge to obtain credit, goods or other services fraudulently.

- Simple, effective and convenient way to protect your data in the home or office
- Quick and clean application that rolls across text masking your information
- Identity Protection, Privacy Protection, Data Protection Roller Stamp
- The roller stamp pattern was specifically designed to obscure printed text
- Mask address details on most packaging types/materials and any documents containing confidential data
- Environmentally friendly, conceal private text and recycle
- Retractable cap to avoid any mess and convenient for storage
- Left and right handed use
- Replacement refills available

- 1.** Simply roll over the printed information you want to conceal and the unique pattern obscures the text underneath it. A specially formulated ink, makes the ID Guard ideal for masking printed material.
- 2.** ID Guard is ideal for use on uneven and curved surfaces as the roller applicator is able to imprint ink on uneven surfaces such as corrugated cardboard boxes. It easily conforms to rounded containers such as mailing tubes and prescription medicine bottles.
- 3.** The small size of the ID Guard allows for convenient storage in a desk drawer. Extend and retract the applicator head with the push of a button, preventing accidental inking when not in use.
- 4.** When the time comes to replace the ink cartridge, it is simple to open up the main casing and drop in the fresh cartridge
