Fiilex **Wall Controller** Programmable DMX
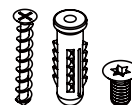

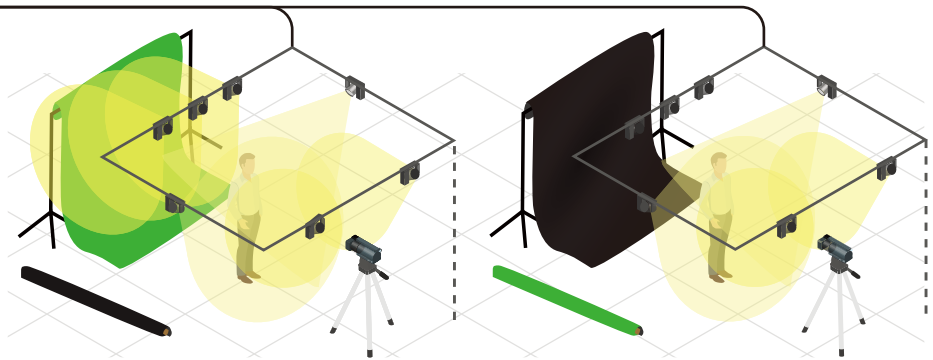

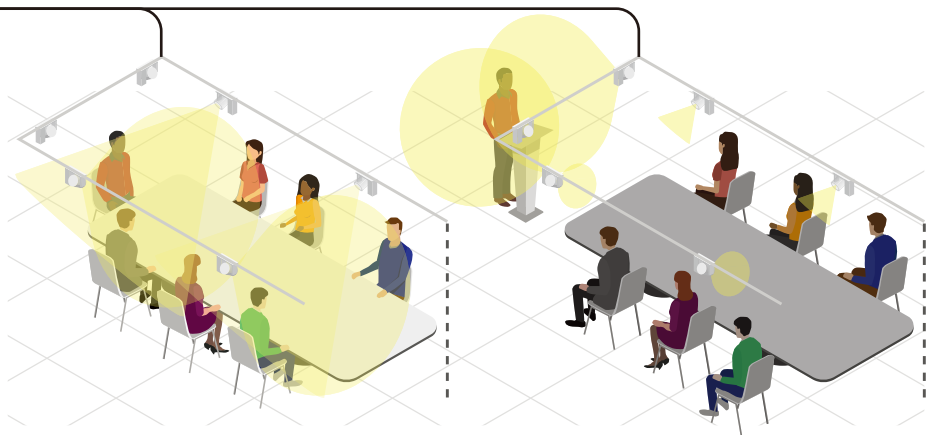

QUICK SCENE SELECTION

Recording Space with Ambient Light
In this tight recording space, ambient sunlight can be easily matched by adjusting the track lighting's color temperature.

Small Studio
With Fiilex track lighting, this small, low-ceilinged studio can isolate lighting between subject and backdrop.

Flexible Corporate Meeting Space
This corporate meeting space switches between presentation lighting and general lighting with the press of a button.

- **Up to 30 scene presets can be saved to the controller's memory.**

- **Access two scenes via quick select buttons (⬜⬜).**

- **Additional scenes accessible via simple menu navigation.**
