LAFABLIGHT

DURABLE, FAIR, HONEST AND WELL DESIGNED LIGHTING

Lafabligh takes a caring look at our daily lives, as best it can to make each day a little more beautiful. Question of meaning, return to pure and essential design, respect for know-how, and the values of slow design.

All our products are designed to be welcoming, fair, honest and well thought out around beauty, well-being, the art of sensitive and committed living.

In a "slow design" spirit, our lighting fixtures are entirely handmade in our Chartres workshops, giving each of our products a unique character.

Made in small series from carefully selected noble materials, LAFABLIGHT creations favor natural materials and short circuits.

BRAIDINGS

Our collection is available in different braidings, offering the choice between several patterns. The cotton threads and ribbons worked into a precious mesh subtly sculpt the light. The geometric lines stretched and braided by hand according to know-how constitute the aesthetic signature of LAFABLIGHT.

THE COLLECTION

LAFABLIGHT designs and creates its collection of lighting fixtures so that each lamp can be transformed into a pendant lamp, table lamp, wall lamp, or even chandelier to compose, creating an aesthetic dialogue where each lighting fixture responds to each other in a harmonious play.

LAFABLIGHT lights are designed for all living spaces: homes, hotels, restaurants, offices, etc.

LAFABLIGHT also studies tailor-made products and carries out special orders at the request of its customers.
