3 Ply Masks

Cherish - 3 Ply disposable masks EN14683 type II compliant

Technical Information

- Manufactured to isolate bacteria and viruses
- Designed with a bendable nose bar and flexible ear loops
- Latex-free, Nickel-free & Cadmium-free
- BFE \geq 98%
- PFE \geq 98% at 0.1 micron

3 LAYER PROTECTION

1. Outer Layer: Professional waterproof non-woven fabric

Coloured to distinguish from fluid resistant face masks and ensures the user wears the mask the correct way.

2. Middle Core Filter: High efficiency melt blown filter cloth

Gives 0.1 Micron particle filtration efficiency

3. White Inner Layer: Professional grade hydrophilic non-woven fabric

Enables users to wear the masks comfortably for an extended period.

Retail Box: 50 units per box (2 sealed packs of 25)

Boxes per Carton: 40

Carton Size: 52 x 40 x 38 cm

Stock Code: MED/MASK3PLY

EAN: 5055377844738

Approvals: CE, EN14683

EN14683

3 Ply Sterile Surgical Masks EN14683 IIR Compliant

Technical Information

- Manufactured to isolate bacteria and viruses
- Designed with a bendable nose bar and flexible ear loops
- Ethylene oxide sterilised
- No smell, no bleach and no formaldehyde
- BFE \geq 99%
- Type IIR Splash Resistance Pressure 16.0kPa

3 LAYER PROTECTION

1. Outer Layer: Professional waterproof non-woven fabric
2. Middle Core Filter: High efficiency melt-blown filter cloth
3. White Inner Layer: Professional grade hydrophilic non-woven fabric

Retail Box: 25 units per pack

Boxes per Carton: 3000

Clothing

Sterile SMS Surgical Gowns (MHRA Approved)

Description

These gowns are ideal for clinical use where a bacterial barrier is required. SMS gown material is made from layers of spunbond Polypropylene material giving strength, with a layer of melt-blown material for repellency.

Technical Information

- A strong, soft gown material.
- A lightweight, breathable and anti-static fabric for maximum wearer comfort.
- Fluid repellency (treated to provide increased repellency to low surface tension fluids such as blood).
- Adjustable neck-line fit with hook and loop touch fastening.
- Long sleeves with knitted cuffs.
- Fully overlapping back with side tie-fastenings for easy accessibility.
- SMS, 45g
- Sterile, single use and latex free
- MHRA Approved, EN13795-1:2019, EN ISO 13938-1:1999, EN 29073-3:1992, EN ISO 811:2018, EN ISO 11737-1:2018, EN ISO 22612:2005, EN ISO 22610:2016, EN ISO 9073-10:2004, EN ISO 13938-1:1999, ISO 3801-1977

Thermo Responder Infrared Thermometer

Technical Information

The Thermo Responder uses infrared to measure the human body temperature quickly and accurately. This product is plug and play and suitable for use at home, office, hotels, restaurants, clinics, hospitals, schools, airports and more.

- Power: 2 x AAA batteries (not included)
- Measuring Temp: 35°C – 43°C with Warning Alarm
- Measuring Distance: 30mm – 50mm
- Temperature Unit: Switch between Celsius and Fahrenheit
- Power Saving: Auto power off
- Dimension: 150 x 90 x 44 mm

Retail Box: 1 unit per box

Boxes per Carton: 20

Carton Size: 36 x 25 x 25 cm

Snap Oximeter

Technical Information

A pulse oximeter is a small, lightweight device used to monitor the amount of oxygen carried in the body.

- SpO2 (Blood Oxygen Saturation) - Measurement Range: 0–100%, Display Range: 0-99%,
- PR (Pulse Rate) - Measurement Range: 25-250 bpm, Resolution: 1 bpm, Accuracy: +- 3 bpm
- PI (Perfusion Index) - Low perfusion up to 0.075%
- Results in 8 seconds
- 1.5" HD Large LED display with menu function
- IP22 Water and Dust resistant
- Battery operated, 2 x AAA (Not Included)

Retail Box: 1 unit per pack / 100 units per box

Boxes per Carton: 1

Carton Size: 47 x 32 x 20 cm

Stock Code: MED/MEDSNAPOXIM

Wall Scan Infrared Thermometer

General Information

- Wall mounted / Tripod mounted. **Tripod Sold Separately.*
- 0.1 second quick measurement
- 10-15cm distance detection
- Accuracy: $\pm 0.2^{\circ}\text{C}$
- Switch between $^{\circ}\text{C}$ Celsius and $^{\circ}\text{F}$ Fahrenheit
- Screen: Digital display
- High Temperature Automatic Alarm: Sound + Flash
- 1-week standby time
- Low battery alarm
- Rechargeable battery

Swabs

Oropharyngeal Gamma Swab

Technical Information

- Oral Sampling Swab is a sterile ready-to-use sampling device recommended for collection clinical specimens for microbiology examinations. Recommended applications: oropharyngeal and Paediatrics
- Composed with fine shaft, nylon fibre tip and a peel pouch. The shaft is made of Acrylonitrile Butadiene Styrene material, which is straight, flexible and breakable at the fixed breakpoint. The tip is made of Nylon fibres and a proprietary adhesive, which is non-toxic and can provide the most absorption and releasing of specimens.
- Gamma Sterile
- Individual Peel Pack

Dimension of tip		Dimension of Plastic stick		
Thickness	Length	Diameter	Breakpoint	Total Length

Pipette

Plastic Pasteur Pipette

Description

Ideal for transferring and dispensing small amounts of liquid safely and rapidly.

Technical Information

- LDPE material with excellent transparency
- Good chemical stability and fluidity for easy control
- Graduated Pasteur pipettes with clearly graduation
- Available in a wide range of standard and special types
- High precision and drop repeatability
- Sterile and non-sterile are available
- Sizes range from 0.5ml to 23ml

Boxes per Carton: 10 x 500 units

Healgen Corona Virus Antigen Rapid Test Cassette (Swab)

Technical Information

The Coronavirus Ag Rapid Test Cassette (Swab) is an in vitro immunochromatographic assay for the qualitative detection of nucleocapsid protein antigen from SARS-CoV-2 in nasopharyngeal (NP) swab specimens directly or after the swabs have been added to viral transport media from individuals who are suspected of COVID-19 by their healthcare provider. It is intended to aid in the rapid diagnosis of SARS-CoV-2 infections. The Coronavirus Ag Rapid Test Cassette (Swab) does not differentiate between SARS-CoV and SARS-CoV-2.

Benefits

- Rapid testing for SARS-CoV-2 antigen within 15 minutes
- Facilitates patient treatment decisions quickly
- Simple, time-saving procedure
- All necessary reagents provided & no equipment needed
- High sensitivity and specificity

Contents

- 20 Test Cassettes, 2 Extraction Buffer Vials, 20 Sterile Swabs, 20 Extraction Tubes and Tips, 1 Workstation, 1 Package Insert

Healgen Corona Virus Antibody Rapid Test Cassette (Swab)

Introduction

The novel coronaviruses belong to the 13 genus. COVID-19 is an acute respiratory infectious disease. People are generally susceptible. Currently, the patients infected by the novel coronavirus are the main source of infection; asymptomatic infected people can also be an infectious source. Based on the current epidemiological investigation, the incubation period is 1 to 14 days, mostly 3 to 7 days. The main manifestations include fever, fatigue and dry cough. Nasal congestion, runny nose, sore throat, myalgia and diarrhea are found in a few cases.

Contents
