

Goldilocks desk

caramba.store | @my.caramba

What you get

If you purchased the long Goldilocks desk, you are getting the same number of parts but with different sizes. The desk top is longer and narrower, the 3 aprons are longer and the mid top apron (MTA) comes with 3 holes instead of 2.

The wood screw anchors are already attached to the plywood parts.
In order to avoid wood tear, do not over tighten the screws!

You can do this!
