Series C801 Single Nut Locking Assembly

Climax C801 single nut locking assemblies deliver a mechanical interference fit and provide a high torque capacity without the backlash of traditional keyed connections.

Climax Series C801 Features:

- Single nut design allows for quick and simple installation
- Lower contact pressure

PØ

- Limited axial movement of mounted component during installation
- Zinc plated rings with a corrosion resistant nut
- Imperial shaft sizes 5/8" to 3" and metric sizes 15mm to 75mm
- Available from stock in Mentor, Ohio
- Shaft and bore tolerance on all sizes:± .003
