

► MARENGO TAPWARE

Shower yourself in pure luxury whilst standing under a true rain shower. The 250mm rose offers the largest spray pattern of all our showers, delivering a soft full rainfall spray whilst maintaining water efficiencies. The stylist outdoor tapware family is created from a combination of tough marine grade stainless steel and highly durable UV stabilized acetyl; both are chosen for their ability to last outdoors. The black acetyl is featured throughout the family together with the satin stainless steel finish and creates a unique modern look.
