

Valutek Cleanroom Vinyl Tape

Part Number: VTCRTW

NanoTek

ISO 3-4 (Class 1 -10)

Description: Valutek soft and pliable PVC tape is ideal for cleanroom applications construction where a strong hold is required. Residue free removal from most surfaces. This tape is constructed of a Poly Vinyl Chloride Film with a transparent pressure sensitive acrylic adhesive coating. This construction increases tensile strength, enhances elongation and improves write-on capability. All Valutek tapes are tested and manufactured in compliant facilities under our inspection and strict process control to ensure Valutek quality standard and product specifications.

Application: As part of the Valutek Nanotek product family, this cleanroom packaged tape is recommended for use in a cleanroom Class 1-10 (ISO 3-4), its synthetic & natural rubber resin blend adhesive bonds quickly to most surfaces and is considered low residue for glass, metal and plastic.
