◀ SUPER SMALLS

No matter how many beads or Mini-sized jewelry pieces she gave her girls, former Elle Accessories Director Maria Duenas Jacobs always found her daughters taking hers! The mom of three then set out to create Super Smalls, an accessory line inspired by the glitzy grown-up stuff, but translated for a child's eye. Intended for children ages 4 to 12 and anyone young at heart, Super Smalls accessories are designed and packaged to look and feel like gifts—each a treat and treasure! —supersmall.com
