

## Desktop Magnifying Lamp – LED

### Code: LML700

This LED desk mount magnifying lamp helps to reduce eye strain when working on viewing tiny objects, examining items etc. The 130mmØ magnifier head is easily set to virtually any desired position on its spring-loaded arm assembly. It is fitted with 45 high brightness, natural white SMD LEDs (colour temperature 4,500k) providing a crisp, clear view. This enables the lamp to maintain the colours of various objects as if illuminated by a natural light source. Simply clamps to your workbench or desk (up to 60mm thick).

#### Features
