

Complete Solutions and Answers for Introductory Physics

Errata

We always strive to make our textbooks as accurate as possible, but sadly, errors are a reality. We very much appreciate friends who report errata that are not included in this document!

Please send new errata to info@novarescienceandmath.com

Complete Solutions and Answers for Introductory Physics (2018)

The following applies to copies printed prior to August 2021. The error is corrected in the August 2021 printing.

Chapter 6 Density Exercises

11. The answer is correct. But in the solution, the mass should be rounded to 1.14×10^7 , not 1.13×10^7 . Similarly, the weight should be rounded to 1.12×10^8 not 1.11×10^8 .
