Note: **Version 4.0** was dramatically revised in 2017 from the previous versions. The extensive revision includes a full-color design, the insertion of an adventure storyline for students to follow throughout the text, a complete new Latin-language content edit, and assorted other edits. Due to the length of these revisions and the page numbers changing as a result, we will not list each 2017 revision in this errata sheet. Please note: The chapter-by-chapter Latin grammar sequence remains the same as previous versions.
