

## PRODUCT SHEET

### COMMERCIAL FRYER RFE 16 C

#### Specifications

Reference	RFE 16 C
Dimensions	400 x 600 x 980 mm
Weight	35 Kg
Power	12 KW
Voltage	380 V

#### Description

Particularly designed for fast food and restaurants, these fryers on cabinet are equipped with adjustable elements so you can adapt the power to suit the desired cooking.

- Maxi power (12 KW) cooking of frozen food, quick temperature rising.
- Midi power (8 KW) cooking of fresh food.
- Mini power (4 KW) for keeping warm the oil.

Mounted on adjustable stainless steel feet 150 mm (CE - UL / NSF), these fryers are equipped with a power relay, a large flow draining and a perfect insulated tank with an integrated 'mini-maxi' oil level. Two stainless steel flanges hold the heating element and thermostatic bulbs. Reset safety thermostat in the cupboard.

Single model to fry 35 kg of French fries/h

Made in France.
