

# APPROVED TANK MIX PRODUCTS

***Put your Enlist™ soybean program on the fast track to higher yields with Meristem™ approved tank mix products!***

When planting Enlist E3™ soybeans, it is critical to use approved tank mix products to ensure performance. Meristem™ is excited to be able to offer Enlist™ approved tank mix products that will save you 35% over the competition while producing excellent results.

Enlist™ Approved

### USE RATE

**10 oz/acre  
based on 15 gal/acre water**

### PRICING

**250 Gallon Tote  
\$25.50/gal  
\$1.99/acre**

**2.5 Gallon Packaging  
\$26.50/gal  
\$2.07/acre**

AQUADRAFT™ E is your Enlist™ approved water conditioner, drift & deposition control agent, surfactant and humectant, all-in-one.

### PRODUCT BENEFITS

- Enlist™ approved tank mix partner
- A complete, convenient premix designed for use with 2,4-D-based herbicides
- Conditions water to ensure optimal performance of pesticides and other tank mix partners
- Unique AMS-replacement technology blocks antagonistic hard water ions that reduce herbicide performance
- Improves spray droplet deposition, coverage and drift control
- Compatible with specified nozzles for 2,4-D-based herbicides
- Easy to handle with low use rate
- Low foaming formulation for easy use
- Stable over a wide pH range
- Mixes well with foliar based nutrients

Enlist™ Approved

### USE RATE

**Foliar: 1qt/acre  
Aerial: 1qt/acre  
Soil: 1qt/acre**

### PRICING

**250 Gallon Tote  
\$22.60/gal  
\$5.65/acre**

**2.5 Gallon Packaging  
\$23.60/gal  
\$5.90/acre**

HOMESTRETCH™ ULTRA is your Enlist™ approved foliar-applied formulation of 5-0-0 with an advanced formulation of micronutrients.

### PRODUCT BENEFITS

- Enlist™ approved tank mix partner
- Compatible with 2,4-D, dicamba and fomesafen-based herbicides
- Ultimate tank mix formulation compatibility
- Excellent compatibility in ultra low spray volumes such as aerial applications
- Drives season-long plant health by providing micronutrients critical for growth and development
- Prepares plants to deal with season-long stressors

**Contact Meristem™ today to discuss your Enlist E3™ program and find out how we can bring meaningful savings to your farm business.**

## APPROVED TANK MIX PRODUCTS

***Put your Xtend<sup>®</sup> soybean program on the fast track to higher yields with Meristem<sup>™</sup> approved tank mix products!***

When planting Roundup Ready 2 Xtend<sup>®</sup> soybeans, it is critical to use approved tank mix products to ensure performance. Meristem<sup>™</sup> is excited to be able to offer Xtend<sup>®</sup> approved tank mix products that will save you 35% over the competition while producing excellent results.

Xtend<sup>®</sup> Approved

### USE RATE

12 oz/acre  
based on 15 gal/acre water

### PRICING

250 Gallon Tote  
\$23.98/gal  
\$2.25/acre

2.5 Gallon Packaging  
\$24.98/gal  
\$2.34/acre

AQUADRAFT<sup>™</sup> X is your Xtend<sup>®</sup> approved water conditioner, drift & deposition control agent, surfactant and humectant, all-in-one.

### PRODUCT BENEFITS

- Xtend<sup>®</sup> approved tank mix partner
- A complete, convenient premix designed for use with dicamba-based herbicides
- Conditions water to ensure optimal performance of pesticides and other tank mix partners
- Unique AMS-replacement technology blocks antagonistic hard water ions that reduce herbicide performance
- Improves spray droplet deposition, coverage and drift control
- Compatible with specified nozzles for dicamba-based herbicides
- Will not cause an increase in dicamba volatility
- Low foaming formulation for easy use
- Stable over a wide pH range
- Mixes well with foliar based nutrients

Xtend<sup>®</sup> Approved
