

Using the Mennä One

1. Twist the Mennä ring to the open position
2. Remove both infuser baskets (note: this will not unscrew unless the Mennä ring is in the open position)
3. Fill the infuser with your favourite tea (loose or bagged)
4. Screw the inner infuser to the cap (make sure the marks align)
5. Screw the outer basket to the cap (make sure the marks align, you will feel a click)
6. Fill the bottle to the MAX line with hot or cold water and screw on the Mennä cap
7. Enjoy!
8. Repeat steps 6-7 for multiple brews of your favorite tea leaves

You can now Steep, Stop & Re-Steep with a turn of the Mennä ring *(see figure 1)*

How to clean your Mennä

Regular Cleaning: For day-to-day cleaning we recommend separating the vessel, cap, outer basket & infuser and then rinsing all pieces under running water. You may hand wash the pieces or run them through your regular dishwasher cycle.

Deep clean your Mennä ONE weekly:
mennialife.com/cleaning.

WARNING: To ensure that hot water is not trapped inside the infuser it is important that the Mennä ring is in the open position when separating the cap from the vessel.

Replacement Parts: Infusers and seals wear out over time. If you need replacement parts, contact us at mennialife.com
