

Mesh Line

The difference is clear

Maximise your sanding productivity, virtually eliminate dust.

Rhynogrip Mesh Line has been developed to transform your sanding and extraction capabilities. The innovative combination of mineral grain and coating enables the abrasive to cut faster and longer. Whilst the unique open mesh structure keeps dust contaminants out of your working environment.

Discs
Ø 125 mm
Ø 150 mm
Ø 225 mm

Strips
70 x 198 mm
70 x 420 mm
115 x 230 mm

Discover the value

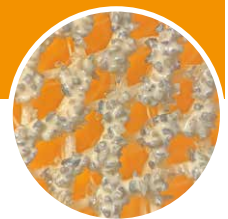

- Open mesh structure → Excellent dust extraction for a cleaner working environment
- Innovative grain technology → Quicker, stronger and prolonged cut
- Robust backing → Durable, crease and tear resistant
- Anti-clogging → Extends working life
- Electrostatic coating → Optimal grain positioning
- Concise range → Perfect for automotive, building, decorative, furniture and marine
- Velour backing → Compatible with all grip backing pads

Open mesh structure
Excellent dust extraction

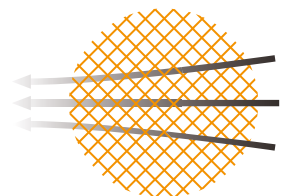

Electrostatic coating
Superior sanding performance

Durable abrasive
Thermally modified for long lasting sanding

Technical Specifications

Abrasive	Blue-fired Aluminium Oxide
Bonding	Modified synthetic resins
Backing	High resistant mesh

Optimised air flow and extraction capability

multi purpose application

The right solution for every challenge

Rhynogrip Mesh Line is a concise range of discs and strips available for both hand and machine sanding applications suitable across a wide range of industries.

Maximise your preparation process in a cleaner working environment, the difference is clear.

Application Suggestions

- ✓ Heavy Duty Sanding
- ✓ Sanding / Preparation
- ✓ Fine Sanding

Substrates

- ✓ Primer
- ✓ Filler
- ✓ Old Paint
- ✓ Wood
- ✓ Fibre Glass
- ✓ Gel Coat
- ✓ Top Coat
- ✓ Plastic
- ✓ Solid Surfaces
- ✓ Furniture
- ✓ Walls and Dry Walls
- ✓ Composites

Also suitable for:

Usage Recommended personal protective equipment when sanding, namely:

- Safety goggles
- Safety mask
- Gloves
