

WILLIAMS REFRIGERATION

GEM MULTIDECKS

GRAB & GO DISPLAY MERCHANDISER
WWW.WILLIAMS-REFRIGERATION.CO.UK

Gem from Williams: the comprehensive range of front of house refrigerated display merchandisers

Perfectly suited to the fast-growing 'grab & go' sector, with standard and slimline Multidecks, sandwich and pastry chillers

Williams Refrigeration is a leading manufacturer of professional refrigeration with a global reputation for delivering excellence.

Our extensive product range includes high performance, energy efficient and environment friendly refrigerated cabinets and counters, blast chillers, coldrooms, backbar and specialist bakery equipment.

Our customer commitment helps you meet the demands of food safety and energy efficiency legislation. Our competitive pricing, professional advice, innovative design and after sales service support attracts customers from all sectors of the market – including many of the world's leading hospitality and retail organisations.

Williams 'right first time' philosophy means that its products provide years of trouble-free operation and are easy to service and maintain.

Greenlogic:

Through the Greenlogic initiative, Williams is committed to supplying the most energy efficient and sustainable commercial refrigeration in today's market. For more information visit www.greenlogic.info

GEM MULTIDECKS

Williams' Gem Multidecks are one of the most popular refrigerated merchandisers for coffee shops, supermarkets, hotels, schools, universities, delicatessens, restaurants and hospitals.

With the increase in 'grab & go' service, our Gem Multidecks have never been in such demand.

Their designer style improves your front of house, while their clever layout maximises every millimetre of retail space.

Williams offers the Multideck range in a choice of slimline or standard versions, to suit the available space.

Both formats are perfect for front of house display, enhancing presentation and giving customers, easy access to drinks, pre-packed snacks and dairy products.

FEATURES AND BENEFITS

ENHANCED DISPLAY

Enhanced panoramic glass side panels for all round visibility. Also provides greater Total Display Area (TDA) and an improved Energy Efficiency Index.

ACT ON IMPULSE

Chrome impulse snack basket to maximise and improve merchandising potential.

SUIT YOUR DECOR

A full range of colours to suit your décor or to truly stand out from the crowd.

MAXIMUM FLEXIBILITY

Adjustable shelving for maximum flexibility.

IMPROVED MERCHANDISING

Removable EPOS ticket strips for improved merchandising.

INCREASED SECURITY

Double lock security shutter for increased overnight protection.

EASY ACCESS

Rear loading doors provide easy access for quick restocking of merchandise.

SLIDING FRONT DOORS

Keep produce fresh and in clear view, while reducing energy consumption.

EASY POSITIONING

Double wheel castors for easy positioning and levelling feet for guaranteed stability.

CLEAR DISPLAY

Digital controller with clear temperature display.

IMPROVED ENERGY

New, innovative aerofins dramatically improve energy efficiency and enhance the customer experience by reducing 'cold aisle syndrome'.

REMOTE REFRIGERATION

Remote refrigeration for noise sensitive areas and easy access for servicing.

FRESH AND SAFE

Advanced airflow ensures produce is kept fresh and safe, while your business conforms to HACCP guidelines with minimal effort.

ADVANCED TECHNOLOGY

Advanced airflow technology guarantees consistent temperature control, between +3°C / +5°C.

ULTRA BRIGHT DISPLAY

LED strip lighting fitted as standard – offering great energy savings and superb visibility of merchandise.

R100-SCN

R70-WCN

R SERIES MULTIDECKS

Slimline Multidecks are ideal where space is at a premium

Moving refrigeration from the kitchen into the serving area is a great space saver for areas such as coffee shops and canteens. Our slimline Multidecks can also be located behind serving counters, or incorporated into 'pod' style kitchens.

The R-Series of Gem Multidecks offers superior product visibility with energy saving aerofins, LED strip lighting and optional panoramic sides.

When your refrigeration is going to be on show, our choice of colours allows Williams Multidecks to blend seamlessly with your décor.

Security shutter models will give you piece of mind with double barrel locks for increased overnight protection.

Advanced airflow technology guarantees consistent temperature control, between +3°C / +5°C, so your business conforms to HACCP guidelines with minimal effort.

A variety of options are available, including impulse snack selection baskets for added merchandising potential, food tray slides, glass shelves, mirrored panels and illuminated shelving.

All models also feature fully adjustable shelving and an easy to use, clear display digital controller. They are supplied on castors as standard, with additional levelling feet for stability.

M SERIES MULTIDECKS

Standard sized Multidecks for maximum refrigerated storage

When product turnover is high, minimising the need for stock replenishment is key. The M series of Multidecks offers storage of up to 917ltrs with its M180 unit.

For retailers that require even more storage, these units can be seamlessly multiplexed together with remote refrigeration.

Optional rear loading doors provide easy access for quick restocking and improved stock rotation.

The M Series of Multidecks is available with night blinds and security shutters.

Advanced airflow technology guarantees consistent temperature control, between +3°C / +5°C, so your business conforms to HACCP guidelines with minimal effort.

A variety of options are available, including snack selection baskets for added merchandising potential, food tray slides, glass shelves, mirrored panels and illuminated shelving.

All models also feature fully adjustable shelving and an easy to use, clear display digital controller. They are supplied on castors as standard, with additional levelling feet for stability.

G100-SFD

G70-HFD

NEW G SERIES MULTIDECKS

Our most energy efficient multidecks to date

The G Series is fitted with a raft of energy-saving features as standard.

All models are offered with a choice of thermally efficient self-closing front sliding or hinged glass doors. The doors themselves are constructed from thermic low emission glass with inert gas 4-6-4 for superior efficiency.

Natural hydrocarbon refrigerant reduces energy consumption due to its excellent thermodynamic properties. It also has a low Global Warming Potential (GWP) and zero Ozone Depletion Potential (ODP).

Crucially, the hydrocarbon charge is under the 150g limit, removing the need for site inspections.

Other energy-saving features include bright LED strip lighting, innovative aerofin ticket strips and panoramic glass ends for enhanced visibility.

A variety of options are available, including solid or glass rear loading doors; under shelf LED lighting and adjustable shelves. A comprehensive range of colours is available. Alternatively, why not completely customise your Multideck with our Chameleon vinyl wrapping service?
