

All our ingredients are local, seasonal
and sourced sustainably.

BEVERAGE MENU

In the second half of the 20th century, the use of chemicals increased significantly in order to control pests and diseases and produce a better harvest. The resulting environmental and health effects of this are a big concern to many.

Reducing the use of chemicals, therefore, contributes to improving the health of the farmers. It also improves the vines and the greater ecosystem as well. That's why we care about wine sustainability. All the wines that we stock use organically farmed or certified grapes that are produced using methods—some new, some ancient—that limit their impact on the planet.

We're trying to build a wine culture in the city that reflects quality and sustainability. Because all of our wines are made by small producers using organically farmed or certified grapes, you'll notice this reflected in the price of our wines. We believe in excellence, quality, and value and our menu showcases that.

Sip, Savour, Slow Down

Drink Healthy, Drink Quality.

Coravin

With our Coravin, we can serve a taste, glass, or more from any bottle of wine, then remove the Coravin System and come back to the bottle weeks, months, or even years later.

This allows you to taste our premium selection without having to invest in a full bottle.

HOT BEVERAGES

Coffee

Americano

Espresso with hot water

125/169 R/L

Espresso

The classic full flavour shot of freshly extracted coffee
