Nedis SmartLife

The easiest way to your **smart home**

Overview
2024

Nedis **SmartLife**

The easiest way to your
smart home

Nedis SmartLife is a smart home system that allows you to control and monitor your home appliances and devices from your smartphone or tablet. With the Nedis SmartLife app, you can easily set up, manage and control your lights, plugs, thermostats, cameras and other smart devices, from anywhere and at any time. The app provides you with a centralized and user-friendly interface to manage all your smart devices, giving you the ability to create customized routines, set schedules and receive notifications.

With Nedis SmartLife, you can turn your home into a smart home and enjoy the convenience and peace of mind that comes with it.

Assortment

Nedis SmartLife offers a range of innovative solutions that make your home more efficient, cost-effective and comfortable. With a touch of a button, you can take control of your energy consumption and reduce costs while also improving your comfort level.

Our extensive product line has something for everyone and each product has been carefully designed to enhance the overall customer experience. Whether you are looking to control your lights, plugs, thermostats, cameras, or any other smart device, Nedis SmartLife has you covered. Our products work together seamlessly to create a smart home ecosystem that is both functional and easy to use.

Content

Application

The Nedis SmartLife app is a central hub for managing and controlling all your smart devices from your smartphone or tablet. This user-friendly app allows you to set up, monitor, and control all your smart products, including lights, plugs, thermostats, cameras, and more. With the ability to create custom routines, set schedules, and receive notifications, you can have full control over your smart home from anywhere and at any time. Whether you're at home or away, the Nedis SmartLife app keeps you connected to your smart devices and gives you peace of mind. The app is designed to be easy to use, with a sleek interface and intuitive navigation, making it simple to manage all your smart devices with just a few taps. Upgrade your home to a smart home with the Nedis SmartLife app.

The Nedis SmartLife app is available for free in the App Store or Google Play.

Technology

Nedis SmartLife is a smart home platform that offers a seamless and versatile solution for your home. Our products are compatible with multiple communication protocols, including Wi-Fi, Zigbee, and Bluetooth, making it easy to connect and control all your smart devices. This wide compatibility means you can mix and match different smart products, regardless of the communication protocol, and control them all through the Nedis SmartLife app. Our products are designed to work seamlessly with your existing technology, making it simple to upgrade your home and experience the comfort and convenience of a connected lifestyle. Choose Nedis SmartLife for a smart home solution that is both versatile and user-friendly.

Stay healthy

The Nedis SmartLife app helps you stay fit and healthy. You can use the app to track and record various exercises.
Use the smart watch and the scale and see at a glance what you are doing.

Energy saving

With the Nedis SmartLife app you can start saving energy with the click of a button.
By creating smart scenario's to make sure all your lighting is turned off, or by only monitoring your devices with a smart plug.

The comfort of your own home

A smart home also means creating the environment that suits your lifestyle. Make sure you're never cold, because your thermostat is already running while you are on your way home. Create your own comfortable home with smart scenario's.

Be smart and safe

A secure house can be arranged by arranging security camera's or motion detectors in and around your house. By combining a wide range of Nedis SmartLife products you can create a environment where you feel safe and smart!

Security

Nedis SmartLife offers a variety of
options to protect you, your family
and your belongings.
With our range of cameras, detectors,
and video doorbells, you can ensure
the safety of your home at all times.
Our cameras can monitor your home
for any unexpected events and
our detectors can alert you to potential
dangers, such as a gas leak or fire.
The video doorbell lets you see
who is at your door before opening it,
giving you added security and
peace of mind.

With Nedis SmartLife,
you can have the confidence
and protection you need
to feel secure in your home.

Energy

Nedis SmartLife not only gives you control over your home appliances and devices via smartphone or voice commands, but also helps you save money on energy costs.
You can easily monitor and adjust your energy consumption by turning off the lights when you're not in the room or lowering shutters to keep out heat in the summer.

Our range of smart products allows you to live comfortably while being mindful of your energy usage, reducing costs and contributing to a more sustainable future.

With Nedis SmartLife, you can have the best of both worlds - comfort and savings.

Zigbee Radiator Thermostat

New

- Smart Zigbee radiator thermostat to control the temperature in any room of your house
- Set a schedule or change the temperature remotely with the Nedis Smartlife app
- With an integrated LED display and the intuitive knob you can change, monitor and control the temperature directly on the radiator
- Easy installation where no special skills or knowledge (electrical or plumbing) is required
- Open window function, Standard group function and Anti-calcification function
- Child lock function - to prevent unauthorized temperature changes
- Anti-freezing function – prevent frozen pipes
- Low power alarm – warning when batteries getting empty
- Temporarily override - to temporarily adjust the temperature during a program, the rotary knob can be operated.
- Google Assistant, Amazon Alexa or Siri shortcuts voice control to control it with a simple voice command
- Zigbee devices need a Zigbee gateway (WIFIZBxxx) to work with the smartlife app

ZBHTR20WT

Zigbee Climate Sensor

- Measure temperature and humidity wherever you want within a range of approximately 30 m from the Nedis Zigbee gateway (WIFIZB10WT)
- Fully integrates with your Nedis SmartLife application (through the Nedis Zigbee gateway) to combine with other smart products in automations.
- See both live and stored climate information for the last day, week or month in clear graphs in the app
- Battery powered for flexible placement
- Battery lifetime of up to two years
