AIRING

When the earbuds are removed from the charging case they will automatically turn on and the left and right ears will be automatically paired in 15S. (If they don't pair press 2 times quickly both the buttons on the earbuds & repeat if not successful from the first time).

Once connected the earbuds will automatically connect with the last paired device.

CHARGING

1. Place the earbuds in the charging case & charging will start automatically.

Blue LED light on the charging case means they are charging, when it's off means they are fully charged. The LED light stops 10 seconds after both the earbuds are fully charged.

2. Use the provided Micro USB cable to charge the case and connect to any 5V adapter. While charging red LED light will keep flashing, when fully charged it will stop flashing.

OTE

Charge at least once a month the earbuds if you don't use them for a long period of time so it can protect the battery life.

When the earbuds are on but not paired up to 5 minutes they will automatically turn off in order to protect the battery life.

ESET

If the earbuds crash please press the buttons for 8 seconds to reset.
