

??????????? ANSWERS TO YOUR QUESTIONS ????????????

Q. What happens if I don't have enough oxygen?

A. **OXYGEN DEFICIENCY** can cause a lot of disorders and health problems. Research shows that oxygen deficiency can be the single greatest cause of disease. Immune system, energy production, detoxification and overall health depend on a high level of oxygen in your body.

For example, *virtually all heart attacks* come down to a failure to deliver oxygen to the hard working heart muscle.

You can starve your body of oxygen. Just like you take vitamins to supplement what you're not getting in your food, you need to take **Dr. LaMar's Liquid Stabilized Oxygen** to help you get more oxygen, to scavenge and displace deadly free radicals and destroy infectious anaerobic bacteria, parasites, microbes and viruses.

Q. Don't I get enough oxygen from breathing?

A. **NO**, you don't. Pollution is everywhere. As toxins contaminate the air they replace oxygen. The earth's air use to be 40% oxygen, now it's 20% and in some places, like Japan, it's 8%! Also, any form of stress (emotional, physical, lack of exercise, infections, viruses, drugs and alcohol, polluted air and contaminated food) uses up the oxygen in your body.

Q. What is Liquid Stabilized Oxygen?

A. Technically speaking, **Dr. LaMar's Liquid Stabilized Oxygen** is an electrolyte solution containing oxygen attached to naturally occurring salts (sodium content is minimal). When the oxygen is buffered and stabilized, it remains firmly attached to the electrolyte molecule waiting to be released into a bio-active environment – the blood stream.

Q. What does Liquid Stabilized Oxygen do?

A. It helps you get more oxygen in your system. Technically you're adding nascent oxygen which helps you get more oxygen out of the air you breathe. Nascent oxygen is known to attack free radicals and infectious anaerobic bacteria, parasites, microbes and viruses.

Q. How does Liquid Stabilized Oxygen work?

A. When **Dr. LaMar's Liquid Stabilized Oxygen** is taken, the stomach acid and digestive enzymes release the nascent oxygen into the system. It's then absorbed through the digestive process. In every case the digestive system is improved.

Q. What % of oxygen and how much salt is there in Liquid Stabilized Oxygen?

A. 14,500 parts per million which equals about 30% - the highest you can go and be safe. The amount of sodium is

about the same amount that is in 1/6 of a slice of bread. One stick of celery has more salt than an entire bottle of oxygen.

Q. How is Liquid Stabilized Oxygen different from hydrogen peroxide?

A. **Dr. LaMar's Liquid Stabilized Oxygen** releases far more usable oxygen than hydrogen peroxide which allows the body more time for complete absorption. Hydrogen peroxide releases the nascent oxygen too quickly for your body to get most of its benefits.

Q. What are the health benefits of Liquid Stabilized Oxygen?

A. Hostile microbes, anaerobic bacteria and viruses are unable to survive in the presence of oxygen. Oxygen is a powerful free radical scavenger. Any stress – whether caused by infections, toxic chemicals, emotions or physical trauma, results in an increase of free radicals. Extra oxygen helps keep this in balance.

Q. How often do I take Liquid Stabilized Oxygen?

A. Add 10 drops to 8 ounces of pure water (distilled or reverse osmosis) 4 times a day, before meals and at bedtime. For chronic conditions, **Dr. LaMar's Liquid Stabilized Oxygen** can be taken every 2 hours until condition improves.

VEGGIE WASH: Mix 16 ounces of pure water with 1 1/2 teaspoons (120 drops) of **Dr. LaMar's Liquid Stabilized Oxygen** in a hard, clear, plastic spray bottle for decontaminating your food, washing your fruits, vegetables, marinating meat, body spray and much more.

Q. Trying to lose weight but not reaching your goals?

A. When our bodies burn food (calories), energy is stored in a substance called ATP (Adenosine Triphosphate). Without this source of energy cells cannot function normally. Lots of oxygen is needed at the cellular level in order for our bodies to burn fat. Put your weight loss program back in your control. Energize today with **Dr. LaMar's Liquid Stabilized Oxygen**.

EXTRA OXYGEN = EXTRA ENERGY

Proven In Independent Laboratory Tests To Destroy Germs In Water That Can Cause Illness And Diarrhea

JUST WHAT THE DOCTOR ORDERED

"I'm writing to share with you my clinical experience using your stabilized oxygen product in the treatment of an emphysema patient, Mrs. Thelma Moore. She could not climb 3 steps without stopping on each step, or walk 20 feet without gasping for breath. After 1 month of using 20 drops of **Dr. LaMar's Liquid Stabilized Oxygen** in a glass of water 4 times a day, she is now able to walk as far as 200 feet without any discomfort. Mrs. Moore has also begun to do housework, which she hasn't been able to do for at least 10 years. I'm looking forward to her continued progress."

Edward McGivern; D. C.

ELIXIR OF LIFE

"My present client has been on the **Dr. LaMar's Liquid Stabilized Oxygen** now for about 5-6 weeks. We did 50 drops of oxygen with honey, 3 times a day. His tumor, diagnosed with melanoma, has shrunk from 7cm to 5cm in one month. He had spent the last couple of years faithfully going to every "nutritional" clinic around. Now he's really getting well."

Windsor, CA

MEMORY • FOCUS • CONCENTRATION

"Someone gave me a bottle of your **Stabilized Oxygen**. I've given 20 drops, once a day, for 4 days to my mother who has Alzheimer's. The results are unbelievable. Before, she was disoriented, sometimes very paranoid and slept most of the time. Now she's alert, her memory is better and she's up for a major part of the day. Before, she would sleep around the clock. Now she's bright, cheerful and fantastic. It's almost too much to believe."

M.L. Teagle; OH

GOOD-BYE TO BLADDER INFECTIONS

"I want to commend you on your excellent product, **Dr. LaMar's Liquid Stabilized Oxygen**. Before using it, I was having bladder infections very frequently, as often as once a month. I was taking antibiotics constantly. Now it's been 2 years since I've had an infection. It is a great product."

V. Howard; CA

#1 ELEMENT FOR LIFE

"My wife's been suffering from Alzheimer's for about 5 years now. For the past 2 years we've been using **Dr. LaMar's Liquid Stabilized Oxygen** as recommended by an American doctor. My wife is in better health than she was 3 years ago, and the past year has been stable."

D. Powell; South Africa

NATURE'S NATURAL ANTIOXIDANT

"I used **Liquid Stabilized Oxygen** to purify water on my trip to India. I did use much higher concentrations than I do here but it really worked. Most of my friends got sick & I never once got a case of Delhi Belly!"

Cynthia Paul; CA

CARDIOVASCULAR IMPROVED

"About a year ago my husband had a heart attack and was in the hospital for 2 weeks. When he came home he wasn't able to stay on his feet long, his legs gave way. About 2 months ago he began to have seizures & pass out. Our doctor called a heart specialist and a neurologist who said that when he stood up his blood pressure fell so low the oxygen couldn't get to his brain. After 3 weeks in the hospital the doctor said, "There's nothing else we can do, the medicine I gave him didn't help him.." We brought him home in a wheelchair. Then, thank God, a friend brought him a bottle of **Dr. LaMar's Liquid Stabilized Oxygen**. Within 3 days he didn't have any more seizures. Two days later our daughter began helping him to his feet. He is walking everywhere now & feels great. We could never say enough about the **Dr. LaMar's Liquid Stabilized Oxygen**. It performed a miracle for my husband."
F.R.V.; Dallas, TX

WONDERFUL TRAVELING COMPANION

"On my recent trip to the Soviet Union for the Emerging Leaders Summit Conference, practically everyone in our group came down with some form of gastrointestinal disorder during the 10 days we were there. Fortunately for my roommate John Byrnes, editorial director for "Farm Journal" magazine & me, I had taken along a supply of **Dr. LaMar's Liquid Stabilized Oxygen**. We treated all our drinking water with the oxygen & took 15-20 drops 2 times every day. We were spared the misery of our traveling companions. Even the compulsory vodka toasts that put several of our U.S. & Soviet buddies under the table did not seem to have the crippling effect the morning after on John & me that it did on the others."
P. Lewis; San Antonio, TX

PAIN = LOW ENERGY OXYGEN = ENERGY

"I had an infected tooth that was very painful. The dentist wanted me to take an antibiotic, which I refused to do. I put the **Dr. LaMar's Liquid Stabilized Oxygen** in my Waterpik & within 24 hours the swelling and pain were gone. Two weeks later I saw the dentist and he couldn't believe I had gotten rid of the infection without his antibiotic. I cut my foot open on a broken beer bottle badly enough to need stitches. I decided to try the oxygen instead. It stopped the bleeding & the pain immediately & within 3 days was healed."
CLM; Emporia, KS

URNS OLD DOG INTO YOUNG PUPPY

"After my 3 year old dog was spayed, she got very lazy and started to gain weight. The fatter she got, the harder it was for her to breathe so she got even lazier. I started putting just a few drops of **Dr. LaMar's Liquid Stabilized Oxygen** in her water and within a month she was breathing better and chasing the puppy I had gotten. She soon lost all the weight she had gained."
Sandra R.; Sierra Vista, AZ

BEWARE OF ENVIRONMENTAL POISONS

"We are missionaries living in central Mexico. For 1 year now we have been using **Dr. LaMar's Liquid Stabilized Oxygen** to purify our drinking water & to soak all the vegetables we eat. Untreated "drinking water" in our area is teeming with amoebas & other parasites. Prior to using **Dr. LaMar's Liquid Stabilized Oxygen**, we had to boil all drinking water for 30 minutes & soak our vegetables in water with bleach or iodine added before they were safe. For the past year, we've simply added 50 drops of **Dr. LaMar's Liquid Stabilized Oxygen** to a 5 gallon bottle of tap water at night & in the morning, we've had fresh, clean-tasting water. We've also soaked our vegetables in a sink full of water with 20 drops of **Dr. LaMar's Liquid Stabilized Oxygen**. Just before we returned to the U.S. this December, LaNell & I each had tests run to determine if any amoebas or other parasites were in our bodies. None were found!"

Bill & LaNell Miller; San Miguel de Allende, Mexico

A NATURAL ANSWER FOR THE DIABETIC

"I'm a diabetic & have neuropathy in my feet. **Dr. LaMar's Liquid Stabilized Oxygen**, taken every day, greatly reduces the pain & allows me to walk with minimum discomfort."

Jackie Richards

SINUS & RESPIRATORY RELIEF

"I've been taking the drops now for only 5 days & find remarkable sinus relief. My husband is using it for help with emphysema & is pleased. He has fewer breathing problems."
