

Ultimate Salt

A Homeopathic Preparation
Alternative To Ordinary Table Salt

Ordinary Table Salt

Many doctors readily acknowledge that ordinary table salt, which is almost 100% sodium chloride, can produce harmful effects in the body. The common concern is the sodium/potassium ionic imbalance.

Dr. Henry Gilbert, an early pioneer in this field, found that if ordinary table salt “had all the other salts of the body combined with it in correct physiological proportion, it would be a food, but when only one element is present, the mineral balance of the body is completely upset, and so the body is poisoned.”

He further explains that ordinary salt interferes with the normal flow of all the fluids of the body and so lends to increased susceptibility to colds and other infectious ailments. It creates mineral imbalances and a relative deficiency of every other mineral constituent of the body. Then by displacing potassium in the cells, it causes a potassium deficiency. Biochemist Jacques Loeb also affirms that sodium chloride is poisonous to protoplasm unless combined with other essential elements.

Dr. D. C. Samuel West, a noted researcher on the lymphatic system, claims that ordinary table salt upsets the delicate mineral balance in and around the cell, thus interfering with the electrical function of the cell.

Sea Salt

In considering sea salt as a possible alternative to ordinary table salt, researchers have learned that sea salt contains too much magnesium and insufficient potassium, since humans, like other land life, require more potassium than do sea creatures.

Bio-Chemically Balanced

Dr. West affirms that each cell is an electrical generator, depending for its function upon the delicate mineral balance in and around the cell. Being a biochemical balance of the essential minerals and trace elements, **Dr. LaMar's Ultimate Salt** contributes to this delicate balance and can also help compensate for some of the mineral deficiencies in various foods.

Dr. LaMar's Ultimate Salt has a delicate flavor and is fine-textured. It is not a salt nor a low-sodium or sodium-reduced product. Its agreeable flavor enhancement is recommended as an alternative to ordinary table salt.

Dr. LaMar's Ultimate Salt is a triturated **homeopathic** compound preparation, biochemically balanced to correspond to the normal saline content of healthy human plasma.

Active Ingredients

Sodium Chloride, Potassium Chloride, Tricalcium Phosphate, Magnesium Oxide, Zinc Oxide, Potassium Iodide, Ferrous Fumarate, Copper Gluconate, Manganese Sulfate, Chromium Picolinate and Trace Minerals from Sea Salt.

Before Taking

All of our products are supercharged with bio-rhythms to protect our body from EMFs and scanning.

Before taking this product, pause for a moment and “*Give God the Glory For Your Health*”. Thank Him for what you want the nutrients to do for you and “*Feel the Difference*”.
