

## *Dots, Dashes and Stripes*

artwork by SUSAN LEONE HOWE

Dots, dashes and stripes are to be found everywhere in my artwork, so it seemed fitting to select pieces for this show which exemplify these types of marks and strokes.

I initially received my degree in painting from San Jose State University and then almost twenty years ago fell in love with fine art printmaking at our local Cabrillo College.

This show includes paintings, mixed media pieces and one of a kind prints. The mixed media pieces include a new fresco-like technique which gives relief to my strokes, as seen in *Book Mobile*.

For me, finding pattern is exciting and it is all round us. It breaks up pieces of space— in roads with dotted lines down the middle, telephone poles receding into the distant landscape, and in a speckled sky of clouds. Dashes can just flow from a brush and stripes can be seen in the fields.
