

A SORT OF HOMECOMING: FATHER'S DAY 2021

NICOLE MUJ (<https://destinationluxury.com/author/nicolekultura/>) × JUNE 5, 2021

Father's Day 2021 will be extra poignant this year, with families being reunited for the first time after many, many months, daughters and sons finally being able to visit their parents, and grandparents meeting their grandchildren for the first time.

So, we'd like to celebrate all the fathers, grandfathers, uncles, brothers, and all the great men of our lives this June 20th with a special gift guide.

For the foodie dad who loves to barbeque, the coolest and most unique gift option this year is The SteakAger, a state-of-the-art appliance that makes high-quality dry-aged steak accessible to enjoy in the comforts of our homes. Dry-aged steak is the secret of every world-class steakhouse using an ancient process that produces a chemical reaction that breaks down beef and transforms it to richly flavored, fork-cut tender steaks. Two options are available, [The SteakAger PRO 15 \(https://steakager.com/product/pro-15/38/\)](https://steakager.com/product/pro-15/38/) and the stand-alone [SteakAger PRO 40 \(https://steakager.com/product/pro-40/1/\)](https://steakager.com/product/pro-40/1/). In addition to steak, one can also make homemade charcuterie! The SteakAger and its accompanying [accessories \(https://steakager.com/catalog/\)](https://steakager.com/catalog/) are available online at the company's official website and on Amazon.

Now, to cut that meat, we recommend an expertly crafted knife set by [Dedfish Co.](https://dedfishco.com/) (https://dedfishco.com/), a USA based brand that brings beautiful design and functionality to everyone's kitchen, from the professional chef to the home cook. The sophisticated [German Steel Set](https://dedfishco.com/collections/shop-all/products/germansteelset) (https://dedfishco.com/collections/shop-all/products/germansteelset) is my pick.

For the dad who carries a knife, but wants to keep it stylish, Gerber's [Fastball](https://www.gerbergear.com/en-us/shop/knives/all-knives/fastball-urban-grey-30-001611) (https://www.gerbergear.com/en-us/shop/knives/all-knives/fastball-urban-grey-30-001611), American-made EDC knife that lives in the place where precision and polish meet.

Nothing is better than a fine writing instrument. The top style options include a rollerball or fountain pen from Faber-Castell's stylish [Ondoro](https://www.fabercastell.com/collections/fine-writing/Ondoro) (https://www.fabercastell.com/collections/fine-writing/Ondoro) Collection, crafted with innovative materials and a distinctive design.

Or the SKILCRAFT Luminator Pen (https://www.alphapointeonline.org/Products/7520016611669-SKILCRAFT-Luminator-Retractable-Ballpoint-PenFlashlight--1mm--Black-Ink_NSN6611669.aspx?onatalp=401701168&fph=1_af6a331993f716de8457c7027cf6ebea), featuring a red LED light that illuminates as you write, and can also be used in extreme weather, including cold and wet, or in flight and zero-gravity conditions. (Remember that famous Seinfeld episode?)

The new MobiScribe Origin (<https://mobiscribe.com/>) is a compact e-ink tablet that lets you jot down notes and never again have to rely on that one last sticky note. The environmentally friendly tablet, which serves as a notepad, eReader, calendar and folder manager, was designed for those who need a streamlined method to write, draw, store, and organize their ideas and thoughts, paperless.
