20 MUST-HAVE BRIDAL ACCESSORIES

ARTICLE BY *Sophie* POSTED ON 13/07/2022 POSTED IN *Fashion & Beauty*

Alright, people, it's time to put the gown shopping to the side (just for a second, we swear!) and turn our attention to another highly important aspect of your big day look: accessories. All those little extras really make an outfit come to life, you know? So they're worth devoting a little love to!

We've sussed out some of the very best cherries for you to put on top of your wedding-day style, from shoes to jewels, bags, veils, bits and bobs for your hair... the works. And every single one of these pieces has been handpicked and given the big old tick of approval from team fash at *Hello May* HQ. We would literally wear any and all of these on our own big days (though... maybe not everything all at once. There's only so many pairs of shoes a person can wear at a time. Even on their wedding day.)

If you're feeling the sky-high heels vibe, we've got a bunch of delicious pairs from the best in the biz (ahem, Meggan Morimoto) and there's a sweet pair of pearl-dotted sneaks for anyone who wants max comfort for dancing the night away instead. Winter brides, scroll on to check out one of our fave picks from the folks at

Unreal Fur (cos who doesn't want to be cosy and look fab?)

If 'extra' is your theme, you're definitely going to want to take a look at the bejewelled Grace Loves Lace veil we picked out and add to cart, asap - or for a slightly more demure (but no less dramatic) aesthetic, peep the delish soft pink hairpiece we're obsessed with from Dove Grey Bridal. A dream.

Our faves at Krystle Knight Jewellery, Kate & Kole, Anastasia Marie The Label and LolaKnight are serving all the earrings, necklaces, bracelets and more to complement your look, whether you're a pearls and lace kinda bride, a keep-it-simple queen or want to go all out with All Of The Sparkle. And if you're in the market for bling of a different variety, Grew & Co and The Moissanite Company have got engagement rings and wedding bands to drool over. Don't ask us to choose a fave - we would marry them all.

Yep, we're calling it - this is the bridal accessories roundup you need in your life. You're so welcome!
