

MEGGAN MORIMOTO

If you're looking for designer wedding shoes, done differently, you absolutely must get to know Meggan Morimoto.

Designed in Melbourne, handmade in Tuscany, Italy, Meggan Morimoto footwear challenges the concept that fashion necessarily forsakes comfort, ethically and sustainably, one luxury modern bridal shoe at a time.

Morimoto's new collection **Bridal and Beyond** signifies the brand's shift from made-to-order to more widely accessible ready-to-wear – while continuing to marry style and comfort with a slow, sustainable approach. Limited quantities of each shoe reduce waste, premium materials ensure longevity, and detachable embellishments allow customisation. Sleek, modern designs – made to be styled up and then down.

From bows to pearls, leathers and more – the ability to ensure your chosen footwear enhances your own personal style and wedding day approach is a game changer. Loved on your wedding day, lived in for years to come – we adore these designs and know you will too.

As if this weren't enough, each Meggan Morimoto style features a swathe of hidden comfort features: **Premium Italian nappa leathers** and fabrics keep busy bridal feet blister-free, and a **nappa lining** minimises friction and allows the foot to breathe.

Made from podiatric memory foam PORON, **custom-designed, hidden comfort insoles add cushioning** – moulding to the foot and retaining density with each wear. Meanwhile a custom collection of lasts ensures **even weight distribution** in every pair of Morimotos. Meaning? A beautifully stable, balanced shoe, without that all-too-common pressure on the balls of the feet.

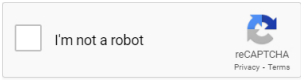

Walking down the aisle is arguably the most nerve-wracking and exciting experience of a lifetime, their shoes will have you feeling comfortable, confident and stylish while taking those steps. Meggan Morimoto is a truly international brand having brides in Australia, NZ, the USA, Europe and the UK choosing Morimotos for their special day and beyond.
