READING AND TECHNOLOGY

INTEGRATING PRINT AND DIGITAL TECHNOLOGIES

Our Brains are Amazing and Complex!

The way the brain learns from paper and printed material/books is different than how it learns from reading on screens such as phones and tablets.

Since books have text that is set in a stationary place, the brain can latch on to that physical space and remember it better. For example, sentences and paragraphs are set in size, shape and location. A book has set left and right pages that give 8 total physical corners that our minds can remember.¹

SCREEN READING

Most reading on a screen is scrolling and moving continuously so your brain doesn't have anything to latch onto and remember as easily!¹

Another reason your teacher may have you read or write with paper (and not review and type on screen) is to help your concentration and focus.³

It has been proven that students are most likely to skim, browse and jump around in an article

on screen.¹ Most screen devices have many distractions—alerts and notifications, other programs, Internet interests, music, etc.—all of which pull attention away from the reading.⁴

INTEGRATION TIPS!

However, using technology is important for well-rounded growth. Here are some tips as to how you may integrate your paper planner with technology!

In your digital calendar set alerts for events that you will be attending—games, work, family activities, etc. Also, note the time you set aside to do your homework. When you are alerted to do your homework, then you can refer to your Success By Design Student Planner.

Your Student Planner may have preprinted subjects, or you may be able to write in your specific

subjects. In this paper planner you will have the space to write all the details and information you need to know in order to accomplish your assignments successfully and completely.

For example: Alert yourself digitally, "Do homework from 6–8 p.m.," and then in your planner have written, "Math, pages 76–77, numbers 1–10. Use the new formulas."

ENGLISH STUDY SKILLS

PARTS OF SPEECH

NOUN

Proper nouns are capitalized and refer to specific persons, objects, ideas, or places.

Examples: John, White House, Monday, Slovakia

Common nouns refer to any person, object, place, or idea.

Examples: house, building, boy, city, anger, desk

PRONOUN

Pronouns take the place of a noun.

Example: Tom washed *his* car on *his* day off.

There are three different kinds of pronouns.

Example: He is taking *him* to *his* house.

subjective objective possessive

VERB

Verbs show action or state of being. They also indicate the time of that state or action.

Examples: He worked on Friday. (past)

I need to place the order. (present)

He will present his report tomorrow. (future)

ADJECTIVE

Adjectives describe nouns by modifying them. They can specify color, size, number, etc.

Example: The green mini-van struck the metal pole near the third intersection.

ADVERB

Adverbs are words which describe verbs, other adverbs, or adjectives. They specify in what manner, when, how much, and where.

Example: The crowd reacted *violently* when it was confronted.

PREPOSITION

Prepositions indicate how nouns and pronouns are related to another word in a sentence.

Examples: Paul stood *behind* the fence.

The cat jumped *onto* the bed.

CONJUNCTION

Conjunctions join words, clauses, and phrases.

Examples: Your drink options are *either* coffee *or* tea.

John could not react fast enough *because* of a poorly healed foot.

INTERJECTION

Interjections, also known as exclamations, are indicated by the use of an exclamation point.

Example: *Wow!* What a beautiful car!

PUNCTUATION

PERIOD: Place a period at the end of a declarative sentence.

Example: We arrive at school each day at 8 am.

In addition, use a period at the end of an imperative sentence that does not express strong emotions.

Example: Sit down.

COMMA: Use commas to separate words and phrases in a series.

Example: Bill has two dogs, one cat, and a hamster.

QUESTION MARK: Use after all interrogative sentences.

Example: Where did you go on vacation?

EXCLAMATION MARK: Use after sentences that express surprise or feeling.

Example: His car looks fast!

SEMICOLON: Use when a conjunction is omitted; it indicates a greater degree of separation than a comma would.

Example: The road was bumpy and curvy; the scenery was grand.

COLON: Use colons to start a list or to formally introduce a statement.

Example: He has three cars: a Mustang, Camaro, and a Duster.

QUOTATION MARKS: Use quotation marks around a direct quotation.

Example: He said, "I want to go home."

APOSTROPHE: Use an apostrophe to show contracted words such as it's (for it is) or to show possession as in Bill's bike.

FIGURATIVE LANGUAGE

SIMILE

A **simile** is a comparison between unlike things using the words "like" or "as."

Examples: He was motionless *like* a statue.

She was quiet *as* a mouse.

HYPERBOLE

A **hyperbole** is an extended exaggeration.

Example: I have a *ton* of questions to ask.

METAPHOR

A **metaphor** is a comparison between unlike things in which one thing becomes another.

Example: He has a *heart of stone*.

PERSONIFICATION

Personification is attributing human characteristics to an inanimate object or animal.

Example: The fox *begged* the hunters to chase him.

PARAGRAPH WRITING

- Write a topic sentence—It tells the main idea of your paragraph.
- List supporting ideas.
- Make a rough outline—Eliminate irrelevant items.
- Write the paragraph.
- Add the clincher—A clincher sums-up the paragraph.
- Proofread—Read and correct grammar, spelling, etc.
- Revise/edit—Correct and make the paragraph more interesting.
- Write the final copy.

- $a^r / a^s = a^{r-s}$
- $(a^r)^s = a^{rs}$
- $(ab)^r = a^r b^r$
- $(a/b)^r = a^r / b^r$ (b ≠ 0)
- $a^0 = 1$ (a ≠ 0)
- $a^{-r} = 1/a^r$ (a ≠ 0)

- $a^{1/3} = \sqrt[3]{a}$

Variation Models:

For variables x, y, and z where k is a positive constant called the constant of variation.

Inverse Variation: $y = k/x$ or $xy = k$
Joint Variation: $z = kxy$
