Shop for Mom this Mother's Day at Freedom Ag & Energy!

Treat Mom to the things she will really love! Visit our locations May 6th through May 11th for deals on items from Muck Boots to flowers to home decor and everything in between.

Fly Control for Your Herd

Managing flies on cattle can be a chore but ignoring them can be costly to not only your pocket but to your herd as well. There are countless ways to treat flies. There are pour-on options, feed through methods, fly tags and oilers and dust bags. See page 2 for deals on all you need to battle flies this summer!

Weeds In Your Pasture?

Treating your pastures for weeds can be a lot of work. Most pastures have many types of weeds growing, it is best to spray when they are actively growing. We have a large selection of chemicals to choose from. Be sure to ask what chemical will work for your pasture and your pasture rotation schedule as some chemicals require animals to be removed for a period of time. We do not offer chemical application, but we do sell 3 point sprayers and ATV/UTV sprayers.

News In Your Cooperative

Be sure to follow our Facebook page for updates on sales, events & community outreach! Just search for Freedom Ag & Energy Cooperative!

Visit our website monthly for our monthly newsletter! Visit us at www.freedomagandenergy.com!

Sign up for our customer portal! Visit our website and click the customer portal tab. You'll need to have your account number, store number and an invoice number handy to create your account. You will be able to see all transactions made on your account, print your monthly or yearly statement and stay up to date on changes in your cooperative! Payment options will be available soon.
