# 3 PIECE SEAT COVER INSTALLATION INSTRUCTIONS

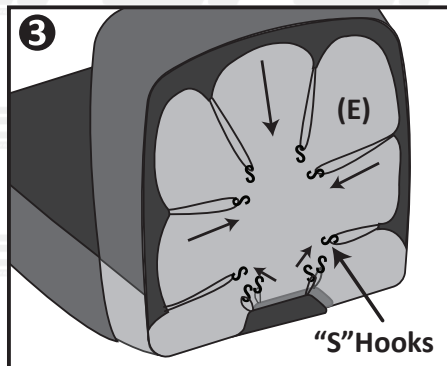

BE SURE YOUR VEHICLE'S ENGINE IS TURNED OFF AND IN PARK BEFORE PROCEEDING WITH INSTALLATION.

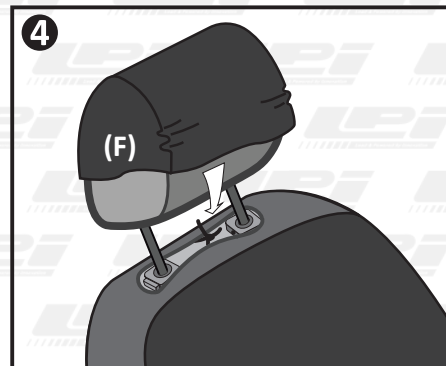

**STEP 1.** Align and slide the top cover over the headrest and back of the seat. **(A)** Push Top Flap through the middle of the seat **(B)** Align cover and tie the Headrest Hole Ribbons together.

**STEP 2.** Align the Bottom Cover onto the seat. **(C)** Push the Bottom Flap through the middle of the seat. **(D)** Place elastic straps under the seat.

**STEP 3.** **"Be sure to wear safety glasses"** **(E)** Carefully push and stretch elastic straps under the seat and connect to each other or to the underside of the seat. **CAUTION**, do not hook to wires or any moving parts. For best results, try to connect to straps across from each other to secure seat cover.

**STEP 4.** Align **(F)** Headrest Cover on headrest and slide over until the entire headrest is covered.

**STEP 5.** Be sure to align the seat cover up with the edges of your seat to insure proper air bag deployment. Take a moment to straighten out, tuck in and snug up any loose edges for the best appearance. Wrinkles caused from shipping should start to dissipate after being on your seat in the warm sun.

**WARNING!**

See installation instructions to install seat cover in vehicles equipped with seat mounted side airbags. An incorrectly positioned seat cover may interfere with the deployment of a seat mounted side airbag. If seat cover is moved from its intended placement for any reason, ensure that it is returned to the correct position before use to allow proper deployment of the seat mounted side airbag. Do not alter or modify this product in any way.

**BE SURE TO WEAR SAFETY GLASSES DURING INSTALLATION.** The potential for snap back could result in serious personal injury. Always be sure vehicle is off and in park before any installation.
