What is a Games Notebook?

A Games Notebook is a way of organizing hands-on educational games for students. You may choose to allow each student to make his or her own Games Notebook, or you can make one to use for the whole family.

All you need to do is purchase a large 3-ring binder and dividers. Label these dividers however you wish. We suggest labels like these: Math, Grammar, Holidays, History, Science, etc. Then purchase the games that you like.

Each time you add a game, assemble it and place it in the binder behind the appropriate tab. Soon, you will have an entire notebook full of games that you can use over and over again!

Use these games to reinforce topics along your learning journey. Go back and play the games over and over because repetition does improve memory.

Watch for many more games in the future. Visit our website (www.knowledgeboxcentral.com) for even more information. Please do sign up for our newsletter so that you will know when new games are available.

Cut out the chart above as well as all bingo cards, calling cards, markers, and pockets. Assemble according to the directions on each of the following pages, and then glue to cardstock. Then punch holes in the cardstock, and place it in your Games Notebook.

Game Instructions:

There are 2 Bingo Cards for the 0 – 5 facts and 2 Bingo Cards for the 6 – 10 facts. There are also Bingo Calling Cards for each set of facts. Make sure that you are using the correct cards with their corresponding calling cards. There is also a blank card (print as many as you need) in case you want to make additional cards for extra players.

Choose someone to be the “Caller.” The caller will randomly choose a Calling Card from a stack. The students will use coins to cover the answers on their bingo cards just like classic bingo. Use the chart above to check the answers.
