Educlips: <https://www.teacherspayteachers.com/Store/Educlips>

Please NOTE:

You will be creating 2 LAPBOOKS. The first one covers Lessons 1-6, and the second one covers Lessons 7-14. All of the instructions and templates are included for BOTH Lapbooks.

How do I get started?

First, you will want to gather your supplies.

*** Assembly:

***Folders:** We use colored file folders, which can be found at Walmart, Sam's, Office Depot, Costco, etc. You will need 8 file folders. You will create **2 LAPBOOKS**, each with 4 folders. You may use manila folders if you prefer, but we have found that children respond better with the brightly colored folders. Don't worry about the tabs...they aren't important. Within this product, you will be given easy, step-by-step instructions for how to fold and assemble these folders. *If you prefer, you can purchase the assembled lapbook bases from our website.*

***Glue:** For the folder assembly, we use hot glue. For booklet assembly, we use glue sticks and sometimes hot glue, depending on the specific booklet. We have found that bottle glue stays wet for too long, so it's not a great choice for lapbooking. For gluing the folders together, we suggest using hot glue, but **ONLY** with adult supervision. These things get **SUPER** hot, and can cause **SEVERE** burns within seconds.

***Other Supplies:** Of course, you will need scissors. Many booklets require additional supplies. Some of these include metal brad fasteners, paper clips, ribbon, yarn, staples, hole puncher, etc.

You may want to add decorations of your own, including stickers, buttons, coloring pages, cut-out clipart, etc. Sometimes, we even use scrapbooking supplies. The most important thing is to use your imagination! Make it your own!!

Ok. I've gathered the supplies. Now how do I use this product?

Inside, you will find several sections. They are as follows:

1. **Lapbook Assembly Guide:** This section gives instructions and diagrams will tell the student exactly how to assemble the lapbook base and where to glue each booklet into the base. Depending on the student's age, he or she may need assistance with this process, especially if you choose to allow the student to use hot glue.

2. **Student Instruction Guide:** This section is written directly to the student, in language that he or she can understand. However, depending on the age of the child, there may be some parent/teacher assistance needed. All of the instructions for assembling the booklets will be found in this section. This section will also tell the student exactly what should be written inside each booklet as he or she comes to it during the study, as well as telling the student which folder each booklet will be glued into.

4. **Teacher's Guide:** This section is a great resource for the parent/teacher. In this section, you will find the page number where each answer may be found in the book. You will also find suggestions of extra activities that you may want to use with your student.

5. **Booklet Templates:** This section includes ALL of the templates for the booklets. These have been printed on colors that will help to improve retention of the information presented, according to scientific research on color psychology.

Colors & Shapes – Why Do They Matter?

After MUCH research and studies, science has shown that colors and shapes have psychological values. These influence the emotions and memories of each one of us. In our products, we have used specific colors and shapes in ways that will improve information retention and allow for a much more mentally interactive time of study. Some pages may have a notation at the bottom, where a specific color is suggested for your printing paper. This color suggestion is designed to improve information retention. However, if you do not have that specific color of paper, just print on whatever color you have. For the most benefit, follow the color suggestions, and watch your child's memory and enthusiasm truly soar!

Be creative!

Make it your own!

If you would like to send pictures of your completed lapbook, please do!

We would love to display your lapbooks on our website and/or in our newsletter.

Just send your pictures, first initial & last name, and age to us at:

Apologia's Exploring Creation With Astronomy 2nd Edition Lapbook Package Base Assembly & Layouts

You will need 8 folders (4 or each of the 2 lapbooks) of any color. Take each one and fold both sides toward the original middle fold and make firm creases on these folds (Figure 1). Then glue (and staple if needed) the backs of the small flaps together (Figure 2) so that you create 2 lapbook bases, each consisting of 4 folders.

This is the “Layout” for your lapbooks. The shapes are not exact on the layout, but you will get the idea of where each booklet should go inside your lapbook.

Inside of 1st Folder of Lapbook #1:

Apologia's Exploring Creation With Astronomy 2nd Edition Lapbook Package

Lapbook #1 (Lessons 1-6)

Student Instruction Guide

Lesson 1

Booklet 1: What is Astronomy?

Assembly Instructions: Cut out along the outer black line edges of the booklet. Fold along the center line so that the title is on the front.

Completion Instructions: Astronomy is a big word. Do you know what it means? Write the definition here.

Booklet 2: Why did God create the stars and planets?

Assembly Instructions: Cut out along the outer black line edges of each page. Stack the pages so that the question is on top. Secure with a staple or metal brad fastener.

Completion Instructions: Do you know why God created the stars and planets? Explain your answer here.

Booklet 3: Name the Planets

Assembly Instructions: Cut out along the outer black line edges of this one-page booklet. Glue to another piece of paper of a different color. Trim around the edges to create a small border.

Completion Instructions: Do you know the names of all of the planets? How about the order of them, starting with the one that is closest to the sun? Write them all here.

Booklet 4: Copernicus & Galileo

Assembly Instructions: Cut out along the outer black line edges of the booklet. Fold along the center horizontal line so that the title is on the front. Now cut along the short vertical line to create two flaps.

Completion Instructions: These men had amazing ideas about our solar system many years ago. Tell about each one and what he believed.

**What is
Astronomy?**
