How do I get started?

First, you will want to gather your supplies.

*** Assembly:

***Folders:** We use colored file folders, which can be found at Walmart, Sam's, Office Depot, Costco, etc. You will need between 1 and 8 file folders, depending on which product you have purchased (See the Assembly Guide & pictures to determine how many are needed for this product). You may use manila folders if you prefer, but we have found that children respond better with the brightly colored folders. Don't worry about the tabs....they aren't important. Within this product, you will be given easy, step-by-step instructions for how to fold and assemble these folders. If you would prefer to watch a video that shows the process, go to our YouTube Channel here: <https://www.youtube.com/watch?v=RBqR-3WSHb0>

***Glue:** For the folder assembly, we use hot glue. For booklet assembly, we use glue sticks and sometimes hot glue, depending on the specific booklet. We have found that bottle glue stays wet for too long, so it's not a great choice for lapbooking. For gluing the folders together, we suggest using hot glue, but ONLY with adult supervision.

These things get SUPER hot, and can cause SEVERE burns within seconds.

***Other Supplies:** Of course, you will need scissors. Many booklets require additional supplies. Some of these include metal brad fasteners, paper clips, ribbon, yarn, staples, hole puncher, etc.

You may want to add decorations of your own, including stickers, buttons, coloring pages, cut-out clipart, etc. Sometimes, use scrapbooking supplies. The most important thing is to use your imagination! Make it your own!!

Ok. I've gathered the supplies. Now how do I use this product?

Inside, you will find these sections:

1. **Base Assembly/Layout and Pictures:** This section gives instructions and diagrams that will tell the student exactly how to assemble the lapbook base and where to glue each booklet into the base. Depending on the student's age, he or she may need assistance with this process, especially if you choose to allow the student to use hot glue.

2. **Booklet Templates & Instructions:** This section includes ALL of the templates. In MOST of our products, we have suggestions for the color to print them on, but with this particular product, just use a lot of green if possible. Each booklet template does include the instructions for assembling it.

NOTE to TEACHERS: This textbook does include a list of all of the answers to the What Do You Remember questions., so we have not duplicated those answers here. Please refer to pages 223-230 of the textbook.

NOTE:

Frequently Asked Question: What is the difference between a Lapbooks and an Interactive Notebooks? MOST choose to glue all of their booklets into a folder base (Lapbook). Others choose to use a regular notebook or spiral binder and glue all of their booklets into that. The choice is YOURS! You may also choose to use the booklets within this Lapbook to create an Interactive Notebook, which is a spiral notebook in which you will just glue the booklets in as you assemble them and answer the questions.

Colors & Shapes – Why Do They Matter?

After MUCH research and studies, science has shown that colors and shapes have psychological values. These influence the emotions and memories of each one of us. In our products, we have used specific colors and shapes in ways that will improve information retention and allow for a much more mentally interactive time of study. Some pages may have a notation at the bottom, where a specific color is suggested for your printing paper. This color suggestion is designed to improve information retention. However, if you do not have that specific color of paper, just print on whatever color you have. For the most benefit, follow the color suggestions, and watch your child's memory and enthusiasm truly soar!

NOTE: For THIS particular Lapbook, we have suggested colors for very few booklets, as most are related to plants. Please DO use a lot of green, and pay attention to the few places that DO have a color suggestion for printing.

Be creative!

Make it your own!

If you would like to send pictures of your completed lapbook, please do! We would love to display your lapbooks on our website and/or in our newsletter.

Just send your pictures, first initial & last name, and age to us at: cyndi.kinney.kbc@gmail.com

Exploring Creation with Earth Science 1st Edition

Lapbook Package

Base Assembly & Layout Guide

If you would prefer to watch a video that shows the process, go to our YouTube Channel here: <https://www.youtube.com/watch?v=RBqR-3WSHb0>

You are going to make 2 Lapbooks! You will need 6 folders (total), of any color. There will be 3 folders in the first Lapbook and 3 folders in the second Lapbook. Take each fold and fold both sides toward the original middle fold and make firm creases on these folds. Then glue (and staple if needed) the backs of the small flaps together. **Again, please watch the video on our YouTube Channel, mentioned above.**

Open each file folder, and lay it flat in front of you. Fold both sides of each folder toward the middle. The edges (or tabs) of the folded sides should touch the center original fold line on the folders. See **Figure 1**. **Figure 2** shows how all 3 folders should be assembled together.

Figure 1

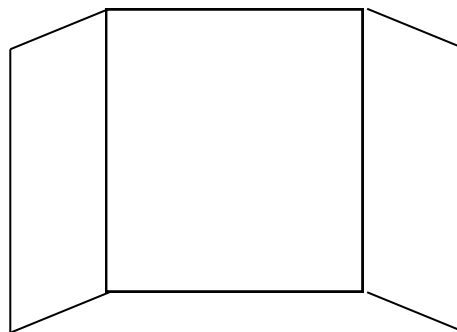

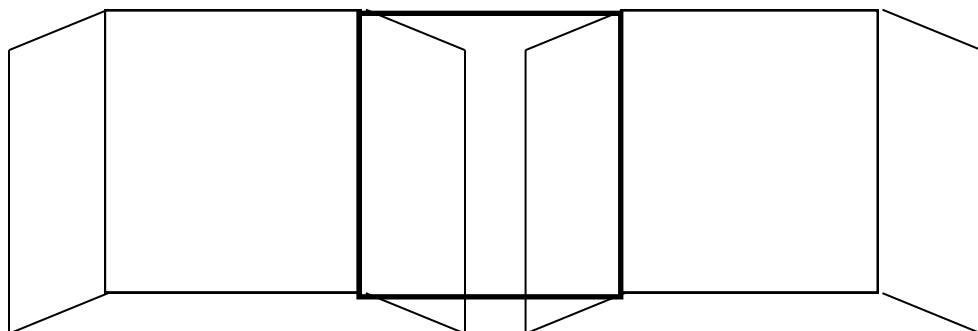

Figure 2

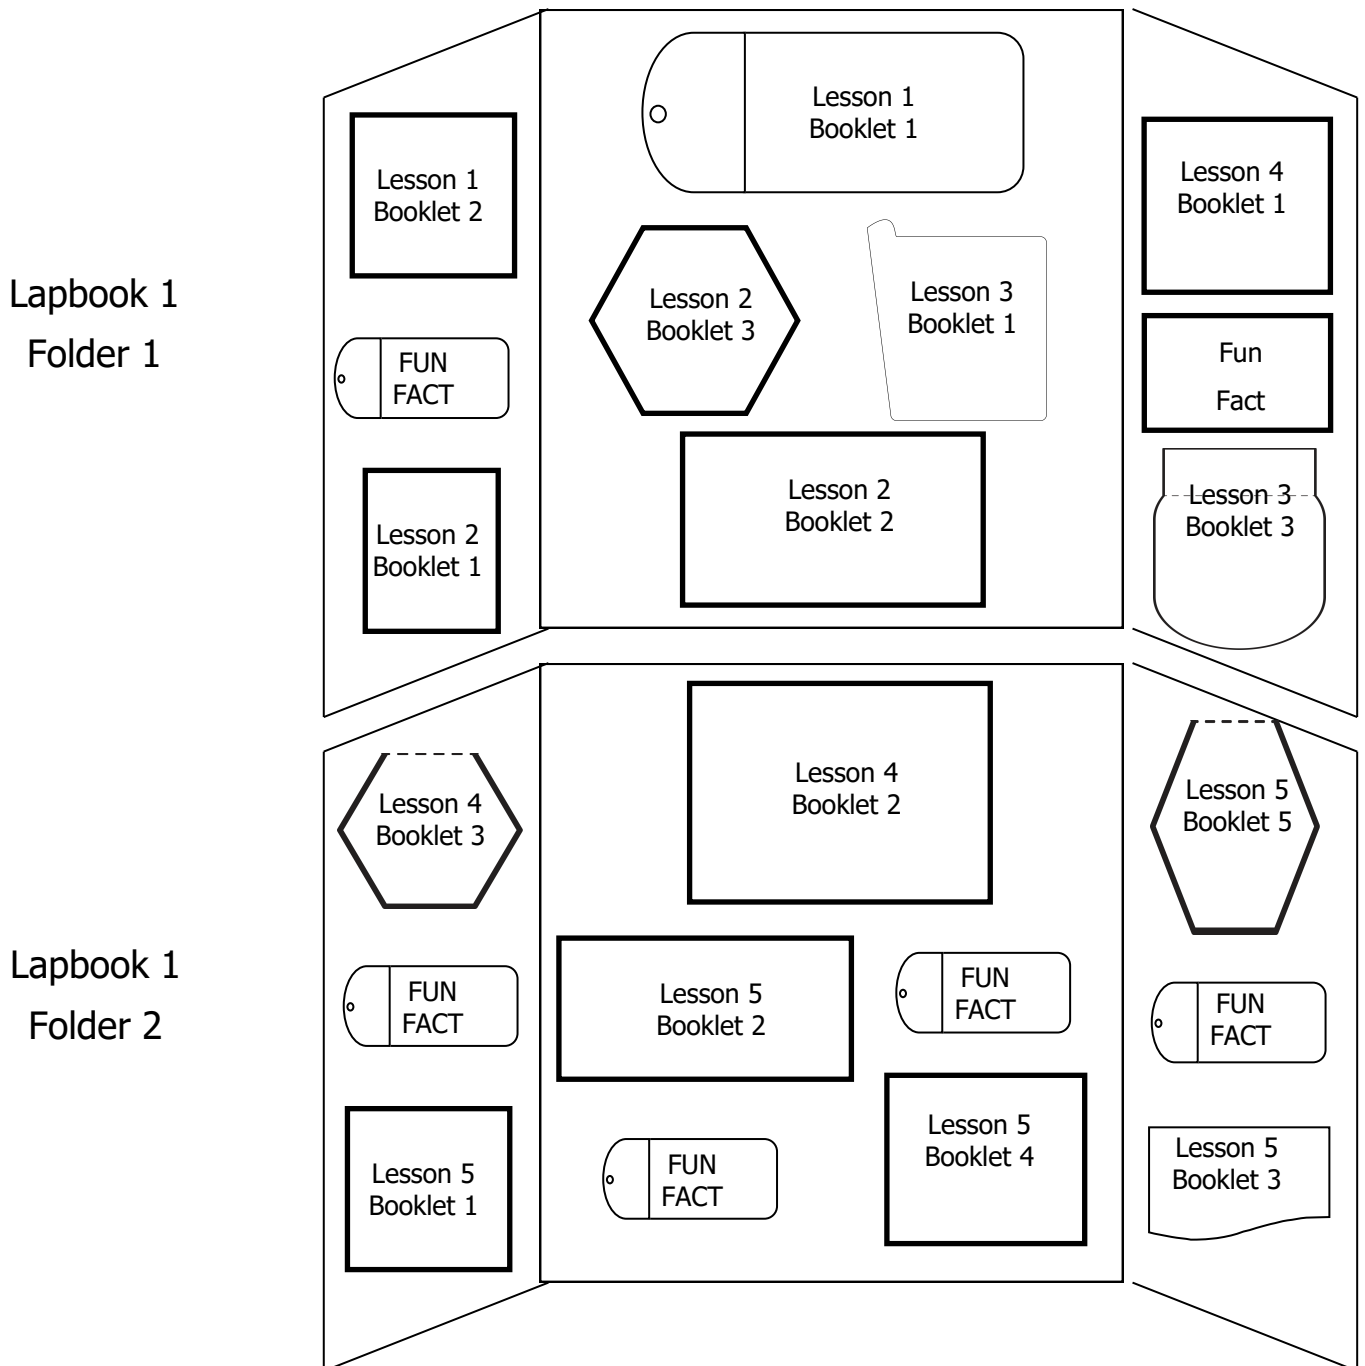

Again, please watch the video on our YouTube Channel, mentioned above.

Exploring Creation with Earth Science 1st Edition
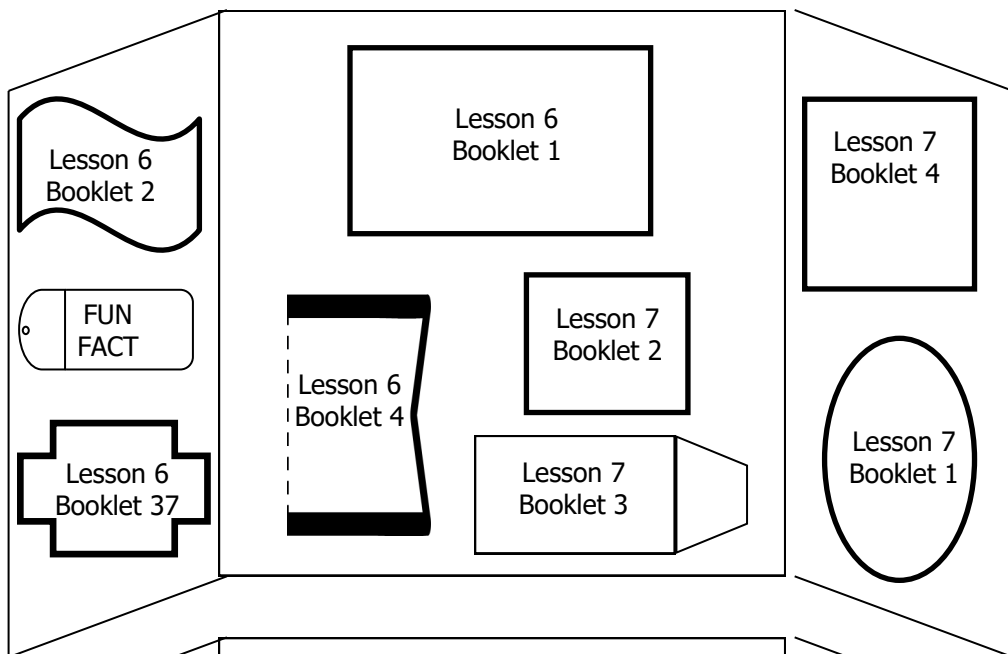

Lapbook Package

The next section contains
ALL of the booklet templates and
their instructions.

These cover most of the questions
that you will see in bold, orange,
centered print throughout each
lesson/chapter as well as many of the
“What Do You Remember” questions.

You will create 2 separate Lapbooks
to go along with this textbook.

Lesson 1, Booklet 1 (Continued on next page)

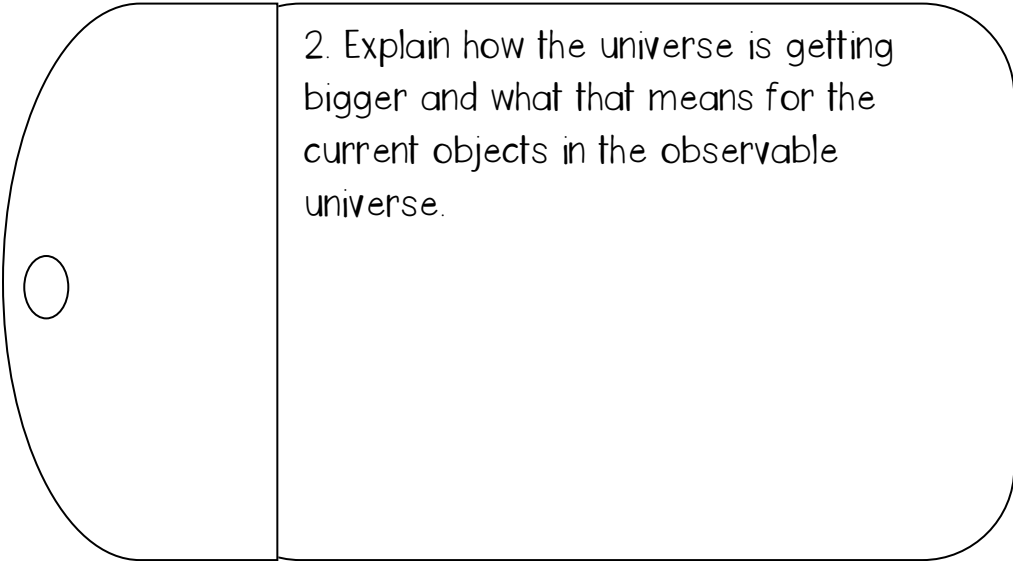

Lapbook 1, Folder 1

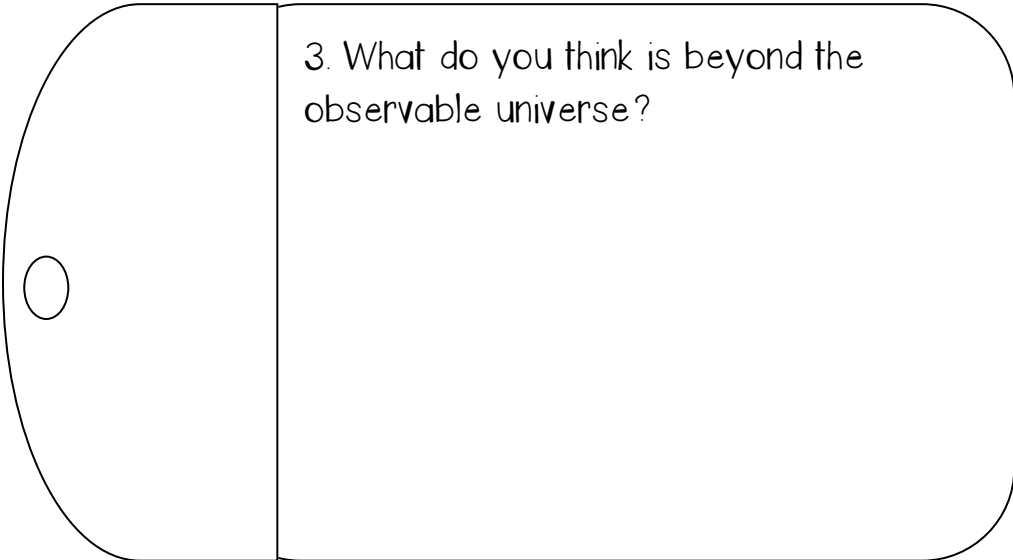

Instructions: Cut out along the black line edges of all of the pages. Stack so that the title is on top and the questions are in order. Secure with a metal brad fastener, yarn, or piece of string through the hole if desired.. Glue into your Lapbook or Interactive Notebook..

Lesson 1, Booklet 1 (Continued from previous page)

Lapbook 1, Folder 1

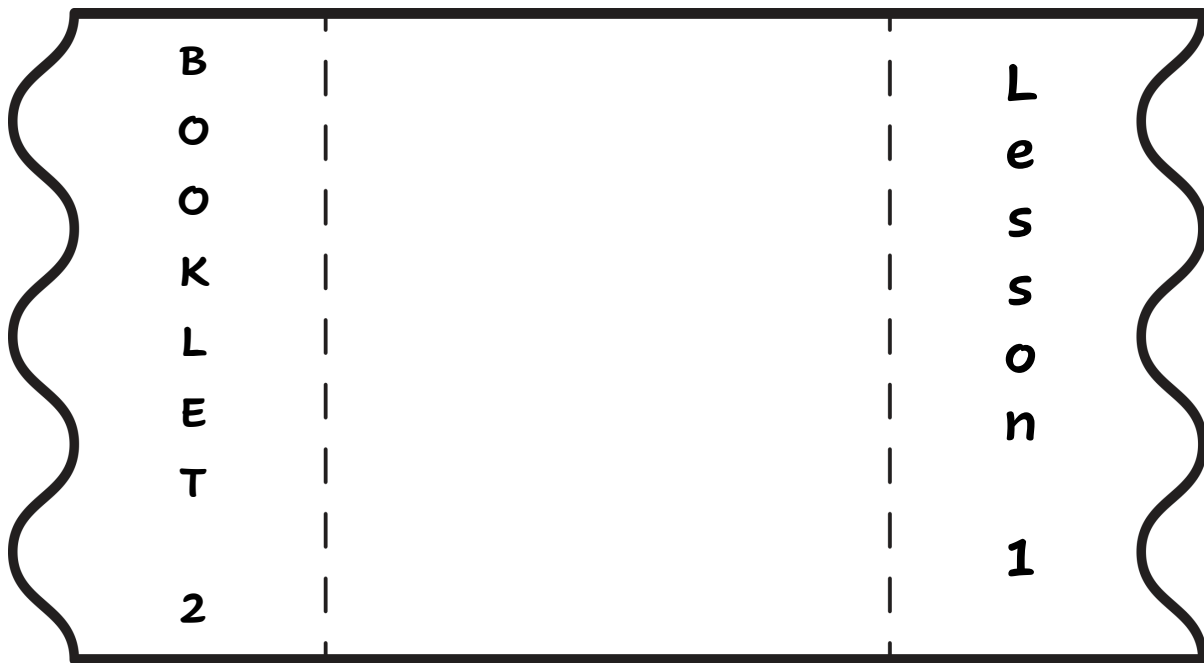

2. Explain how the universe is getting bigger and what that means for the current objects in the observable universe.

3. What do you think is beyond the observable universe?

Lesson 1, Booklet 2 (Continued on next page)
Lapbook 1, Folder 1

1. What is the name of the galaxy that we live in?

2. Can you name the 3 types of galaxies we discussed?

Instructions: Cut out along the black line edges of the booklet and the two question pages. Fold the booklet along the dotted lines so that the words are on the front and the tabs meet. Stack the question pages together, in order. Staple them at the top, inside the booklet. Write your answers on each page. Glue into your Lapbook or Interactive Notebook.

Lesson 1, Booklet 2 (Continued from previous page)
Lapbook 1, Folder 1

3. Do we know of any
other planet that has life?

Lesson 2, Booklet 1

Lapbook 1, Folder 1

Lesson 2 Booklet 1

What is the habitable zone?

Question 1

Does the habitable zone have another name?

Question 2

What happens if a planet is too close to its sun?

Question 3

What happens if a planet is too far from its sun?

Question 4

Why is the size of a planet important for life?

Question 5

What does terrestrial mean?

Question 6

Instructions: Cut out along the black line edges of all 7 pages. Stack with the title on top all of the pages in order. Each page should be slightly longer than the one before. Secure with a staple at the top. Glue into your Lapbook or Interactive Notebook..

**We hope you enjoyed this
Lapbook Package!**
