How do I get started?

First, you will want to gather your supplies. Depending on which format you purchased from us, you will need different supplies. So, take what applies, and skip over the rest.

*** Printing:

*Print instructions and study guide on white copy paper.

*Print the booklet templates on 24# colored paper.

*** Assembly:

***Folders:** We use colored file folders, which can be found at Wal-Mart, Sam's, Office Depot, Costco, etc. You will need 3 file folders. You may use manila folders if you prefer, but we have found that children respond better with the brightly colored folders. Don't worry about the tabs.... they aren't important. If you prefer, you can purchase the assembled lapbook bases from our website.

***Glue:** For booklet assembly, we use glue sticks and sometimes hot glue, depending on the specific booklet. We have found that bottle glue stays wet for too long, so it's not a great choice for lapbooking.

***Other Supplies:** Of course, you will need scissors. Many booklets require additional supplies. Some of these include metal brad fasteners, paper clips, ribbon, yarn, staples, hole puncher, etc. You may want to add decorations of your own, including stickers, coloring pages, cut-out clipart, etc. The most important thing is to use your imagination! Make it your own!!

Ok. I've gathered the supplies. Now how do I use this product?

Inside, you will find several sections. They are as follows:

1. **Student Assembly and Completion Instructions:** This section is written directly to the student, in language that he or she can understand. However, depending on the age of the child, there may be some parent/teacher assistance needed. These instructions will tell the student exactly how to assemble the lapbook base and how to cut out and assemble each booklet. Here, they will find a layout of where each booklet should be placed in the lapbook and pictures of a completed lapbook. They will also tell the student exactly what should be written inside each booklet as he or she comes to it during the study.
2. **Booklet Templates:** This section includes all of the templates for the booklets within this lapbook.
3. **Study Guide:** This section includes most of the information that you need to teach this subject. You may choose to teach directly from the Study Guide, or you may choose to allow your student to read the study guide himself. Either way, you will find all of the information here.

Lapbook Base Assembly:

First, you will need to assemble the “Lapbook Base” for your project.

For this lapbook, you will need 3 file folders. Open the file folder, and lay it flat in front of you. Fold both sides of each folder toward the middle. The edges (or tabs) of the folded sides should touch the center original fold line on the folders. See **Figure 1**. **Figure 2** shows how all 3 folders should be assembled.

Lapbook Layout:

Below, you will see a layout for the lapbook. You may choose to glue the booklets into your Lapbook Base in any order that you like. However, you may have trouble fitting all of them in unless you follow the layout below. Some of the shapes aren't exactly the same on the layout as the booklets themselves.

Tutankhamun

Who was he?

Tutankhamun was an Egyptian king, or pharaoh, born around 1341BC. He was the 12th king in the 18th Egyptian dynasty. He became king when he was only about nine years old at the death of his father, and he ruled just a short nine or ten years from 1332 BC to 1323 BC. Tutankhamun was a relatively unimportant king in his own time, but probably the best known pharaoh of modern times. He owes his fame to the discovery of his tomb in 1922. The treasures and artifacts in this tomb have given us a wonderful picture of ancient Egyptian life.

Tutankhamun's Family

Tutankhamun was born into a royal family. His father was King Akhenaton and his mother was one of the king's secondary wives. Akhenaton's main wife was the famous Queen Nefertiti. Genetic testing done on Tutankhamun's mummy and other mummies found nearby show that his mother was also likely to have been one of Akhenaton's sisters. It was common in Egyptian royal families for brothers and sisters and other close relatives to marry.

Akhenaton was a religious radical. Ancient Egypt was a polytheistic society, meaning that they worshipped many gods. Akhenaton believed that they should worship only one god, the Aten. He even changed his name from Amenhotep IV to Akhenaton to show his loyalty to his god. He tried to do away with over 1,000 years of Egyptian religious tradition and to force people to change the way they worshipped. He even built a new capital city, Amarna, in which to worship his new god. He tried to reduce the power of the priests and shift control of the government away from the temples and into the hands of government administrators and military commanders.
