

SAMPLE ONLY

Assembly Instructions

First, print page 2 on the back of this page. In the final version, there will be instructions on this page. Page 2 will be the beginning of the actual “timeline pages.”

Then print pages 3, 4, 5, 6, 7, and 8 single-sided. On pages 4, 5, 6, 7, and 8, there are dotted horizontal lines above the “timeline.” Cut on these dotted lines, and throw away the portions above the dotted lines.

Now, print page 9 (a map for the next section) on the BACK of page 3. Print pages 10, 11, 12, 13, 14, and 15 just as you did pages 3, 4, 5, 6, 7, and 8...and cut them the same way.

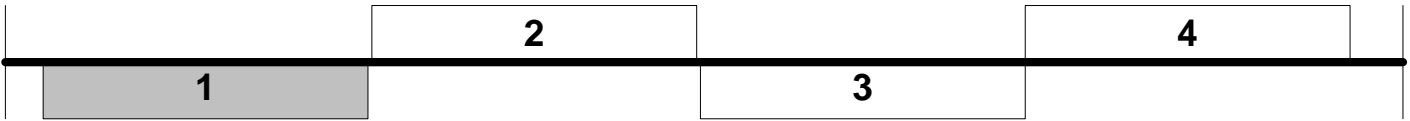

Now, print page 16 (a map for the next section) on the BACK of page 10. Print out pages 17, 18, 19, 20, 21, and 22 just as you did pages 3, 4, 5, 6, 7, and 8...and cut them the same way.

Are you starting to see the pattern?? The MAP for the following section is always printed out on the BACK of the “History & Politics” page of the PREVIOUS section.

Ok.....now, stack all of the pages for a particular time period together so that they “stair-step” with the “History & Politics” page being at the back of each section.....and the MAP for the following section is on the back of that page.

The purpose of the map is so that as the child is adding something to his timeline pages, he can document where in the world that “thing” was happening by using the symbols only. This just helps to get a perspective on what types of things were happening all over the world at the same time.
