

# 3 Gallon Bucket

Series 5686

## Flat Back Side

Reduces contact with the user's legs, preventing spillage

## No-Drip Spout

Designed for easy pouring and preventing liquid from running down the pail

## Measurements

English and Metric measurements are molded into the inside of the pail

## Accessible Hand Grip

Raised from the base on the back side of the pail for an easy grip

This is a durable bucket that is suitable for cleaning or storage of ingredients and food stuff and is calibrated for a variety of measuring units. Updated grips along the top of the bucket allow for a lid (5687) to snap in place. A new drainage hole on the back allows water to escape when the bucket is hung upside down.

### 3 Gallon Bucket

5686

The bucket has a wide drip-free spout, sturdy stainless steel bail, hand grip at the bottom that is raised from the base. The flat side prevents spillage and allows Vikan scoops to be hung on the bucket rim. This bucket may be used with snap-on lid (5687) and hanger 16200.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
