

MEET MISSY

On/Off

Increase
Suction Intensity

Decrease
Suction Intensity

Ready for some fun, girl? Missy takes around 2 hours to charge fully. As soon as she arrives, connect the cable and plug into any USB port you have. Then the fun can go on and on and on and on ... Missy is waterproof, but we totally recommend an anti-slip mat for shaking legs in the shower.

ONCE MISSY IS CHARGED (yasss!)

To use, push and hold the on/off button, then the plus and minus buttons for different intensities. Position the sucking head-on or around the clitoris. You'll be all aboard the O train in no time.

ALL ABOARD THE O TRAIN

Set the mood, get comfortable, and get ready to ride your favourite train. Turn on Missy and choose a starting level - you can always amp it up or bring it down depending what you like.

Best me time ever!

We ♥ Lube:

If you're like us and like a little more slip n' slide you can apply lube directly on the toy or on the areas of your body you're showing some Missy lovin' to. Please only use water-based lubricants with Missy, like Girls Get Off Juicee. Any other oils, creams, or silicone-based lubricants can damage the silicone over time which would be heartbreaking for your Queen V.

STAY CLEAN TO GET DIRTY

Missy loves to get down n' dirty but she needs a clean before and after use. Simply wash with warm soapy water or toy cleaner, rinse, and pat dry with the tender loving care Missy deserves.

Or if you're on the go or want to save yourself from any awkward bathroom run ins, just wipe Missy down with a toy safe wet wipe, like Girls Get Off Cleanies. Easy!

When not in use, store Missy in her storage bag to avoid any dust buildup, and keep out of heat or direct sunlight.

SAFETY FIRST

Missy is an adult only toy. Keep out of reach of children and pets. Missy is not for medical use.

Contact your healthcare professional before use if you have any implanted devices such as a pacemaker, surgery on any relevant body parts, have diabetes, may be pregnant, have thrombosis, phlebitis, or any other concerns that may affect its use.

Do not use Missy if you have any wounds, pain or swollen skin in the genital area.

If you find Missy uncomfortable or painful, please discontinue use immediately.

DISPOSAL

Please refer to your local regulations for disposal.

SPECS

PRODUCT SIZE 120x38.5x46.5mm

POWER INPUT 3.7V

MATERIAL Medical grade silicone/ABS

BATTERY TYPE Polymer lithium battery

PRODUCT WEIGHT 0.84KG

FREQUENCY Air suck 10 modes

WATERPROOF IPX7

CHARGE TIME 150 Minutes

NOISE Less than 50db

USE TIME Approx 60 minutes (depending on setting used)

LOW BATTERY WARNING

MAGNETIC CHARGING

WARRANTY

From the date you purchase your product, we provide a 1 year warranty. Once this period ends we have no obligation to send you a replacement item, even if other replacements have been sent within this 1 year period.
