

MEET TALENTED TIFF

Ready for some fun, girl?
Before the fun can begin Tiff needs to charge for 2 hours. So pour yourself a wine, run a bath, and give yourself some pre-me time, me time.

To get started connect the charger to the two silver dots at the bottom of Tiff, you'll know it's charging when the LED light starts flashing (Note - charging flash is inconsistent).

To keep Tiff's battery in best shape, we recommend only using the provided charger. The USB is compatible with any USB port, because there's nothing worse than a dead battery mid play!

ONCE TIFF IS CHARGED (yass!)

To activate the vibrating arm, press and hold  for approx 3 seconds. Press the  to cycle through the 10 different modes. Press and hold the  for approx 3 seconds to turn off.

To activate the sucking arm, press and hold  for approx 3 seconds. Press the  to move through the 10 different sucking modes. Press and hold  for approx 3 seconds to turn off.

ALL ABOARD THE O TRAIN

Set the mood, get comfortable, and get ready to ride your favourite train. Turn on Tiff and choose a starting combination and level - you can always amp it up or bring it down depending what you like.

Best me time ever!

For external stimulation:

Both arms of Tiff can be used externally. If you're new to an internal vibe we totally recommend warming up first with some external play. The smaller, sucking arm is made for mind-blowing clitoral stimulation, while the larger, vibrating arm can be used to gently move around the area.

For internal stimulation:

This is where Tiff shines by giving you the ultimate pairing - g spot and clitorous pleasure. All vaginas are different but you'll find your g spot about an inch or so inside the vaginal opening on the upper wall. This area is filled with delicious nerve endings (as you'll soon find out!) for ALL the fireworks. While the long arm works the g spot, the short arm stimulates your clitorous. Try different pairings and levels to see what combination works best for you.

We ♥ Lube:

If you're like us and like a little more slip n' slide you can apply lube directly on the toy or on the areas of your body you're showing some Tiff lovin' to. Please only use water-based lubricants with Tiff, like Girls Get Off Juicee. Any other

oils, creams, or silicone-based lubricants can damage the silicone over time which would be heartbreaking for your Queen V.

STAY CLEAN TO GET DIRTY

Tiff loves to get down n' dirty but she needs a clean before and after use. Simply wash with warm soapy water or toy cleaner, rinse, and pat dry with the tender loving care Tiff deserves.

Or if you're on the go or want to save yourself from any awkward bathroom run ins, just wipe Tiff down with a toy safe wet wipe, like Girls Get Off Cleanies. Easy!

When not in use, store Tiff in her storage bag to avoid any dust buildup, and keep out of heat or direct sunlight.

SAFETY FIRST

Tiff is an adult only toy. Keep out of reach of children and pets. Tiff is not for medical use.

Contact your healthcare professional before use if you have any implanted devices such as a pacemaker, surgery on any relevant body parts, have diabetes, may be pregnant, have thrombosis, phlebitis, or any other concerns that may affect its use.

Do not use Tiff if you have any wounds, pain or swollen skin in the genital area.

If you find Tiff uncomfortable or painful, please discontinue use immediately.
