Determined to deliver a fine jewelry feel in an effortless and affordable manner, Stockholm based designer Cecilia Hörberg-Fällström founded CbyC in 2009. The demi-fine pieces challenge the perception of precious and continuously discover new ways to develop easy and accessible elegance.

Expressed through a deep devotion to quality and attention to detail, the delicate creations are carefully crafted by hand. CbyC combine artistic and traditional methods with a use of modern materials for timeless yet unique collections that never compromise on exclusive finesse. With a strong belief that jewelry should emphasize a personal style and be assembled according to pleasure, where a ring does not necessarily mean a lifelong promise or a beautiful necklace is for Sundays only. Each exquisite creation can be worn as single piece or perfectly paired in endless of ways as CbyC encourages confidence and curiosity, embracing the delight of the everyday affection.
