

The Treasure in the Backyard

A Children's Book by

GILI TOYS

Luke and his little sister, **Sammy**, were playing in their backyard on a Saturday afternoon. They liked to pretend-play digging for fossils and treasures just like their father. Their father was an archeologist working in Egypt. He would tell them stories about finding fossils and treasure when he was working, and both Luke and Sammy would love it.

Their father had told them about a **Secret Treasure of 5 Gems**. The treasure was lost and no one knew where it was. The gems had magical powers. But people had forgotten what they could do. As a Christmas gift last year, Sammy and Luke had gotten archeology kits. So that they could be just like their father and look for the **hidden treasure**.

They had a shovel, a trowel, a little hammer, a brush, and a magnifying glass. Luke was digging with his trowel and hammer. Sammy was dusting rocks and looking at them with her magnifying glass to check if she had found a gem.

“Hi, I’m Gili!”, said the Panda.

Sammy screamed and Luke went to hug his little sister. Where had the panda come from?

Gili said, “Oh, I’m sorry. I didn’t mean to scare you. I saw that you two were looking for gems.

I need your help!”

Luke and Sammy realized that Gili was quite friendly, and they were less scared now.

"I'm Luke, and this is my little sister Sammy. How did you get here?"

"I'm from the world of Pandas, and I got lost playing with my **Magical Gems**. They opened a portal and brought me here. But now I want to go back and don't know where my gems are," Gili answered Luke, and got a sad look on his face.

Sammy said to Gili, "Do you mean the 5 Magical Gems! Our dad told us about the hidden treasure!"

Gili replied, "Yes! We use our special gems to travel to other worlds. It would be great if you could help me! I'll tell you what they look like and you can use your archeology kits to find them!"

Both Sammy and Luke got an excited look on their faces. They were finally going to find the hidden treasure!

Gili the Panda told Luke and Sammy about the 5 Gems. They were Jade, Amethyst, Turquoise, Red Agate, and Tigers Eye. He told them about the colors and shapes of the gem.

Then all three of them started looking.

Luke used his hammer and trowel to dig holes, and Sammy pulled out rocks covered in dirt. Then Gili held the magnifying glass to check if the rock had a hidden gem. One by one, they dusted off the rocks and found all 5 Gems!

Gili was thrilled that he could go back home, and Luke and Sammy were over the moon to find the treasure.

“Thank you for helping me! You guys are my friends now and I’ll come to see you soon!”

It was a great day for Luke and Sammy. They called their father and told them they had found the hidden treasure and helped Gili. Now, they couldn’t wait to meet and play with Gili the Panda again!
