PEDESTRIAN BAG

This Pedestrian Bag is a new backpack design in 2021, featuring a pen-and-ink sketch of Gustav, the elephant in ‘*Ruba’iyat of Amma Supahilo*’ collection by Melissa Sunjaya. However, unlike the three earlier editions under this collection, this illustrated edition paints a bold and intense quality of deep black and red – the colours of revolution and bravery. In addition, the process of creating hand-pulled serigraph prints required extra supervision because of the delicate pigments.

PEDESTRIAN BAG

Hand-printed serigraphy textiles on unbleached (chlorine-free) cotton canvas, using eco-friendly water-based inks. For the handbags and accessories category, unless otherwise noted, each textile is protected with water-resistant Poly-Urethane coatings. This interior lining is a highly durable water-repellent fabric, created using the most advanced technology from recycled PET bottles and post-consumer materials

Tulisan has been publishing hand-printed serigraphy textiles and converting them into limited-edition luxury bags and accessories since 2010. Our collections are hand-crafted in the traditional way in Indonesia using sustainable methods and ethical practices. Our hand-made production is certified by the Bluesign® system. Bluesign® Swiss system is a strict screening designed to monitor the responsible use of resources, clean work processes, wastewater management, healthy air ventilation, and safety procedures for the workers as well as a safe final product for the consumer.
