

GREEN LINES = CUT
BLUE LINES = FOLD

GREEN LINES = CUT
BLUE LINES = FOLD

Can't find your tooth? NO WORRIES!

That happens a lot! Just use a "Subti-tooth" instead.

Mark down what happened to your tooth.

Believe me, I've heard it all.

If you want, write me a note inside
this paper tooth - but no pressure!

Here are two Subti-tooths.

And you can always ask your parents to print out more :)
