SIZE GUIDE

BRACELETS

Measure your wrist

Print Bracelet size chart :

- To get the correct results, you will need to go to the «printing settings» before printing and ensure that the «page scaling» option is set to 'none' in the print dialogue box.
- Print the ring size chart on a A4 size page.
- To verify that the sizing guide has printed correctly, measure the sample below with a ruler. It should measure exactly 2 cm.

- Cut out the ruler on the right hand side of the page. Make a slit in the ruler as indicated.
- Insert the pointed end of the ruler into the slit to form a loop, making sure the numbers are facing outwards. Insert your wrist into the loop. Pull on the pointed end to tighten it to a comfortable fit around your wrist, as tight or loose as you like.
- The number at the slit: this is your bracelet size.
- You can also use a measuring tape or a length of ribbon or cord. Wrap it around your wrist and then measure the length with a ruler.

Choose the size of a chain bracelet :

Your chain bracelets are adjustable with two positions in order to give a comfortable fit.
