### WITH SOUNDBAR\*

### WITHOUT SOUNDBAR\*\*

A full-width shelf provides space for soundbars of any size. Integrated cable channels keep wires organized and accessible. Interval 7249 shown.

Hidden behind meticulously handcrafted doors, Interval conceals a host of integrated features to support a complete home theater system. The collection's unique doors feature half-lap jointed hardwood backed with fabric-covered perforated metal, keeping contents out of sight. While a striking design detail, this also provides ventilation and acoustic transparency, allowing the sound from an enclosed soundbar to pass through.

Interval's door opens with a simple push for access to contents.

A cable-glide system assists when opening and closing the cabinet's door.

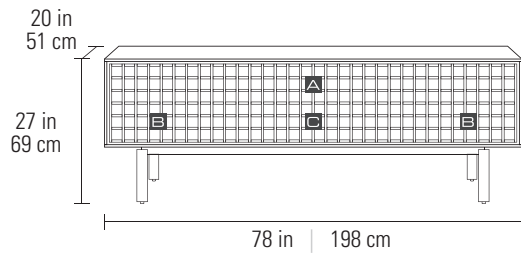

Interval 7247 & 7249 feature removable rear side panels for easy access to cables and connections.

The center shelf on models 7247 & 7249 can be lowered or removed to accommodate speakers up to 14 in | 35.5 cm in height.

## 7249 78" MEDIA + STORAGE CABINET

|                              |                                       |
|------------------------------|---------------------------------------|
| Recommended TV Size          | up to 85"                             |
| Dimensions                   | 27H x 78 x 20 in<br>69H x 198 x 51 cm |
