

CRISPY MELTS

FOR KIDS

A TRULY DISSOLVABLE FINGER FOOD

Why Savorease?

The fastest dissolving solid made specifically to help children learn new skills, new textures, and savory flavors with ease. Children can develop confidence with foods that are easier to control in their mouth because it acts like purée right after the initial crunch. Research proven to behave the same as purée consistency on swallow studies (MBSS and FEES).

Healthy Nutrition

Savorease is nutrient rich and made from plant based protein, savory chickpeas, vegetables, herbs and spices without added sugar found in many foods. Also, the top 10 allergens are excluded from our recipes.

FUNctional Foods

Crispy Melts for kids are a tool to support tube feed weaning, texture sensitivities, chewing skills, food overselectivity, dysphagia, flavor acceptance, increasing calories and protein intake. Early exposure of a child to natural flavors of vegetables, cheese, butter, herbs and spices can help build enjoyment of nutritious foods.

If a child is weaning off of purée foods, or has texture sensitivities, Crispy Melts for kids are an excellent choice for feeding therapy, or including in meals. Our full product line can be ordered online to continue progress with feeding and nutritional goals at home.
