# NUCLEUS

Versatile and easy-to-use, the Wattbike Nucleus is the perfect solution for your facility to attract or retain more members. The in-built workouts, tests, plans, and interval builder allow riders complete flexibility in their training, and our patented technique coaching tools Polar View and PES mean you don't have to hire more gym staff; you can let the Wattbike Nucleus do the work.

Offer your members one of the most immersive and exciting indoor cycling experiences by installing a fleet of Wattbike Nucleus bikes on the gym floor today.

Perfect for the gym floor, fitness testing, personal training and performance fitness zones, the Wattbike Nucleus gives your members an accurate, reliable training tool that will get results. Fast.

## KEY FEATURES

### PERFORMANCE TOUCHSCREEN

Our new high-definition Performance Touchscreen elevates the cycling experience by delivering the most advanced performance feedback. A quick QR code scan allows members to log in to their Hub account, keeping them engaged through exclusive access to the latest workouts and training programmes created by our team of sport scientists.

### NUCLEUS RESISTANCE

The base resistance of the Wattbike Nucleus is slightly higher than a Wattbike Trainer, but not as high as a Wattbike Pro. This new calibration of the Wattbike Nucleus allows for a single model solution that better meets the needs of health and fitness users. The magnetic brake has also been upgraded to provide a more predictable and user friendly resistance.

### PEDALLING EFFECTIVENESS SCORE

Building on the industry defining Polar View, PES provides riders with engaging pedalling technique feedback through a colour coded display and numerical score. Easy to understand coaching points improve technique and prevent injury.

### CONNECTIVITY

The Wattbike Nucleus's unrivalled connectivity allows riders to connect the bike to a host of third party apps through a smart device. Seamlessly connecting to apps such as Zwift, Strava, Training Peaks, or FulGaz; So members and clients can train their way.
