FOR MORE AUTOMATION
## UPGRADE NOW!

60+
NEW FEATURES

DentalCAD® 3.2 Elefsina at a glance

### New features, more automation and seamless integration

- **Preparation margin repair tool** enables you to make the most out of imperfect intraoral scans: fix margins to get an acceptable result despite artifacts or holes in the scan

- Save time with **Auto Articulator** for automatic dynamic occlusion*

- **Integration of compact milling machines:** select your preferred block and start production seamlessly from within your CAD software*

- **Switch** tooth libraries while **keeping previous setup**

*Requires add-on module

Elevated *Smile Creator* for better visualization and pre-operative treatment planning

- Design smiles **with virtual gingiva** for superior outcomes

- Design smiles based on patients' **natural teeth**

- Improved 3D-to-photo alignment: **adjust 3D view to match rendering to the camera's focal length**

exocad names its releases after current EU "European Capitals of Culture" and selected the Greek city of Elefsina for this year's release. Elefsina also known as Eleusis is a town dedicated to the goddess of agriculture Demeter.

Bite Splint Module offers more design speed

- More **automation** in bite splint design
- Design **bite splints for both arches simultaneously**

Full Denture Module improved

- **Copy Denture:** Instead of relining an old denture, **rapidly and inexpensively produce a new one**
- Design **dentures on ball attachments**
- Add-on for the **Ivotion™ Denture System** now available*

*Ivotion library purchase from Ivoclar required

iTero-exocad Connector™ redefines seamless workflows

- Lab/doctor collaboration: **doctors can now share external case-related files** (images, videos and X-rays) via MyiTero™ portal
- New **bi-directional case communication** lets you share designs in 3D
- **Validate margins** with iTero intraoral camera images and visualization of tooth structure with iTero NIRI images

New beta feature: post and core*

- Design **post and core** restorations
- A **crown matching the core** can then be **directly designed**

*Available upon request for beta testers
