- Drive to understanding root cause issues resulting in any discrepancies, problem solve them, and develop long-term solves
- Analyze data to identify areas for improvement and report metrics related to overall operations
- Support Logistics Director in overseeing cycle counts with the 3PL team, supported by Merchandising
- Evaluate current practices across the company (ecommerce, retail, wholesale, influencers) to improve inventory accuracy and provide recommendations to the Logistics Director and Chief Operating Officer
- Monitor all transactions (production orders, transfers, sales orders) to ensure alignment and accuracy with inventory
- Create data model for inventory alignment and collaborate with planning team

Who You Are

- Loves problem solving, detailed oriented, curious
- Bachelor's degree, ideally in computer or math sciences
- Ideally 1-3 years of data science, logistics, and/or retail experience
- Excellent command of excel including macros
- Experience with Synapse, Netsuite, and/or Shopify is a plus
- Strong and proactive communication skills
- Collaborative and team player
- Ideally basic understanding of SQL, Python/R, and/or data queries

Who we are: At Lunya and Lahgo, we are reimagining meaningful leisures from what they wear to the experiences they have. Our team is smart, creative, passionate, and entrepreneurial-minded, who meet the same superior standards we set for our products. We're a young company so nothing is above or below you. Our company culture is special and unique – you'll dig it, we promise.
