

BAADER 2" to 1 1/4" ClickLock Reducer

Item No.: 2956214

Complete outfit: **BAADER 2" to 1 1/4" ClickLock Reducer**
- effective optical length 9.5mm (3/8")

BAADER 2" to 1 1/4" ClickLock Reducer mounted in Baader 2" SC-ClickLock visual back

optional:
2" SC-ClickLock
visual back
#2956220

2" ClickLock visual backs
are available for most
telescopes:
AstroPhysics, Celestron,
Pentax, Skywatcher, TEC,
Takahashi, a.o.

- Precision machined reducer to complement the Baader 2" ClickLock-System
- Firmly holds all 1 1/4" eyepieces, accessories, and diagonals
- ClickLock compression ring made of hardened bronze ensures lifetime non-marring operation
- Fingertip operated twist-lock system works like a CNC machine chuck – onto the compression ring
- Bidirectional ratcheted lever (no thumbscrew!) indicates open/close position in the dark
- Gentle touch onto the lever results in ultra-strong locking action – and easy release
- Accepts all astronomical, cell-mounted 2" eyepiece-filters
- T-2 (M42x0.75) inner photo-thread attaches onto most T-2 threaded accessories and all Baader T-2 diagonals

use as 2" filterholder

use as T-2/1 1/4" eyepiece holder
